## BEDDING PLANTS

### ABUTILON (Flowering Maple, Parlor Maple) 3" & 4½" Pots

1/2S. HW. Old-fashioned plants have numerous bell-like flowers and velvety green, maple-shaped leaves. Pinch to encourage bushiness. These do well in hanging baskets or in containers and make great houseplants that bloom through the winter with enough sunlight. Outdoors they prefer morning or afternoon sun, avoid hot mid-day sun. Keep moist, but not constantly wet. Feed weekly.

- 'Bella Mix' Large 3" bell shaped, yellow pink or red blooms. 14-18"H.

## AGASTACHE (Hyssop)

4 Packs

S. 🌱BDW. Tall, tender perennials belonging to the mint family attract many a creature with their attributes. Hummingbirds, bees, and butterflies are all drawn to these blooms (we've made sure to choose varieties that will bloom the first year for you)! Grows best in full sun and dry-average soils. Very nice alternative to the standard spiky vertical accent.

- 'Astello Indigo' Long-lasting, stately spikes of indigo blue over dark green foliage. This Fleuroselect gold medal winner looks amazing when planted en masse. Strong, bushy plants are vigorous yet compact. 20-24"H
- aurantiaca 'Tango' Abundant, brilliant fiery-orange flowers. A compact habit with good branching and VERY aromatic grey-green leaves. 15"H
- pallidiflora hyb. 'Globetrotter' Dense, lilac-pink flower spikes with continuous vivid magenta bracts. 40"H (in flower)
- pallidiflora neomexicana 'Rose Mint' Bright, lavender-rose blooms during summer. Compact, well-branched habit. 15"H

## AGERATUM (Floss Flower)

6 Packs (Unless Noted)

S, 1/2S. 🌱BCW. Prolific flossy mounds of blooms provide color all summer. Varieties for containers, bedding, and cut flowers. Combine with geraniums and Alyssum for that patriotic red, white, and blue combo. Does best in well prepared soil.

### Bedding Types

- 'Blue Diamond' Mid-blue double blooms. Strongly branched plants show great performance in the garden. 8-10"H
- 'High Tide Blue' This self-cleaning variety with strong branching is taller and more vigorous with a dense, mounded habit. 14-16"H, 12"W
- 'Patina Delft' Excellent heat tolerance, bicolored sky blue & white flowers above a well-branched plant, no need to pinch. Vigorous, 10-14"Hx12-18"W Choice 4 Pks

### Cut Flower Types

- 'Blue Horizon' Lovely lavender to purplish-blue fuzzy flowers on sturdy stems. Vigorous, uniform growth. 30"H

## ALCEA (Hollyhock)

6 Packs

S. BC. Striking, old-fashioned favorite. Butterflies and hummingbirds go into a frenzy around the tall spikes. Always popular! These bloom the first year not like the perennial type. Average, well-drained soil; will tolerate dry conditions once established. Staking may be necessary.

- 'Indian Spring Mix' AAS winner. Semi-double flowers in light pink to crimson-rose shades. 4-5'H
- 'Summer Carnival Mix' Fully double, 4" blooms in yellow, white, crimson, and rose. Very showy! 5-7'H

## ALYSSUM

S, 1/2S.  BW. syn. Lobularia. Tiny blooms cover these carpet forming plants. The most popular of all edging plants. Their sweet honey-like fragrance attracts butterflies. Shear to encourage re-bloom. They prefer average, well drained soil.

6 Packs

- 'Clear Crystal' Series Vigorous, large flowered plants. 6-10"H, 10"W  
Colors include: Lavender Shades Purple Shades
- 'Snow Crystals' Large, pure white flowers. 4-6"H, 10"W
- 'Wonderland Deep Purple' Nice, compact variety with rich, deep mulberry blooms. 3"H, 8-12"W

3" Pots

- 'Snow Princess' A breakthrough in breeding gives this plant better tolerance to wind and rain. Strong, trailing growth makes it ideal for hanging baskets. Flowers throughout the summer and will remain attractive into the fall. 4-6"H, 2-4'W
- 'White Knight' Exceptional blooming and fragrance! Its habit is more restrained than snow princess and easily blends into combination planters and baskets without overtaking its companions. Lovely dark green leaves make the flowers "pop" even more. 4-6"H, 1½-2'W

## ANAGALLIS (Pimpernel)

3" Pots

S, 1/2S. BHW. Colorful plants for borders, rock gardens, and containers. Blooms all summer, cloudy conditions will cause blooms to close. Also makes an attractive indoor container plant for the winter. Prefers light, sandy soil. Intermingles well with others in the landscape & cascades quite nicely in window boxes.

- 'Wildcat' Series Vigorous trailer with a meandering yet well branched habit.

Excellent heat tolerance, drought tolerant once established. 6-10"H, 10-18"W

Colors include: Blue (Bright, indigo) Mandarin (Bright Orange)

## ANGELONIA (Angel Flower)

3" Pots

S.  BW. Long lasting colorful flowers are held on slender upright spikes lasting 4-6 weeks. Their habit makes them an excellent choice for a more interesting vertical accent in summer plantings. Aromatic foliage with an apple scent. Heat and drought tolerant.

- 'Angelface' Series Continuous blooming plants flower well into the fall and do not require deadheading. 18-24"H

Colors include: Blue Improved

Wedgwood Blue (Bicolored blue & white)

White

## ANISODONTEA (African Mallow)

3" Pots

S.  BWH. Excellent container or patio specimens. Easy to grow into a standard. Bring indoors in winter and keep in a sunny window, water sparingly during winter months. Rich, well-drained soil, feed every 10 days. Protect from strong summer sun or plants may stop blooming, removing seed heads will also help.

- 'Elegant Lady' Large, rose-pink flowers. 1-3'H

- 'Strawberry Shortcake' Vigorously upright habit with large 1", deep rose-red flowers. Our own selection, this makes an excellent topiary. 3-4'H

# ASCLEPIAS

4 Packs

S.  BCW. Multi-purpose plants can be used for annual plantings and containers or simply to attract bees and butterflies. If using in floral arrangements it is best to sear the stem with a flame and plunge in water immediately. Deer and rabbit resistant. Transplant with care in a location that will be well-drained, warm and a bit drier.

*NEW!*-curassavica 'Silky' Series Mexican Milkweed Will produce blooms and seeds at the same time, all season long. 24"H.

Colors include:      Deep Red                                      Gold

# ASTER (Starwort)

6 Packs

S. BC. Brightly colored, showy blooms are long-lived cut flowers. Butterflies flock to them. Their peak bloom is in August to late September when gardens tend to look a bit faded. They prefer light, sandy soil with added lime and composted manure.

- 'Crego Finest Mix' An old favorite with large, shaggy blooms. 18-24"H

- 'Giant Princess Mix' Fully double, crested blooms reach 5" across. 28"H

- 'Matsumoto Mix' Distinct yellow centers on finely colored 2" flowers.

Heat resistant. 24"H

# BACOPA (Water Hyssop)

3" Pots (Unless Noted)

S. BW. Very showy flowers all summer long. Small scalloped leaves. Vigorous and heavy blooming. Heavy feeders. Keep moist- as plants will put on their best show when given adequate water and will abort buds if soil is allowed to get too dry.

- 'Mega Copa Versa White' Large flowers with a more upright, contained habit.

Best series on the market for performance during the summer heat! 4-6"H

- 'Scopia Gulliver' Series This series was bred for abundant, early blooms that are continuous throughout the season, increased heat tolerance, and durability. Branched, compact habit. Extra large flowers up to 1" across.

Colors include:      Blue                                      Lilac  
                                    Snow                                      White

## BACOPA, Continued

- NEW!*-‘Snowtopia White’ Beautiful white flowers with large leaves. Good performance in both large baskets or mixed containers. Trailing/spreading 1½-2’W, 6”H. 4 Packs
- ‘Supercopa White Wedding’ Large, beautiful snow white flowers have compound petals that are slightly overlapping making them a bit more distinct. Strong grower.

## BEGONIA

### FIBROUS BEGONIA (Wax Begonias) 6 Packs (Unless Noted)

S, 1/2S. BW. Excellent color from spring until frost. More tolerant of sun than tuberous types. Keep moist in full sun. Fertilize every other week.

-‘Ambassador’ Series Large flowers, very rich green foliage. Dwarf. 8-10”H

Colors include: Coral Pink White

-‘Cocktail’ Series Compact plants bloom all season! Wine-stained foliage is covered with brightly colored flowers. 6-8”H

Colors include: Gin (Rose-pink) Vodka (Scarlet red)

-‘Dragon Wing Red’ Large, wing-shaped, glossy green leaves with brightly colored single flowers in abundance all season. 12-15”H Choice 4 Packs

-‘Sprint PLUS’ Series Large, round blooms are early to flower and very uniform. Green foliage. Excellent performance in containers or bedding. 10”H

Colors include: Blush *NEW!*Orange  
Scarlet (Red) White

*NEW!*-‘Tophat’ Series Giant blooms are the largest flowers in its class! Versatile. Fills out large patio planters easily. Green foliage with strong branching. 16-20”H, 20-24”W 4 Packs (Limited quantities)

Colors include: Scarlet White

### HYBRID BEGONIA

4½” Pots

1/2S. BW. Hybrid begonias have large, mostly double blooms all summer long and perform exceptionally well; whether planted in containers or the landscape.

-‘Amstel’ Series Vigorous, floriferous plants. 12”H

Colors include: Blitz (Yellow) Camilla (White w/ rose)  
Carneval (Orange & yllw) Clara (Bright White)

## HYBRID BEGONIA, Continued

**NEW!**-'Netja Dark' Semi-double, flamingo pink blooms. Dark, shiny green leaves. Upright habit. 12-18"H & W

**NEW!**-'Orange Stone' Handsome, double deep orange blooms with shiny dark green leaves. Upright habit.

-'Rhine' Series Fully-double, peony-type blooms from May until frost.

Colors include: Berseba (Soft pink) Borias (Soft, antique pink)  
Dragone Champagne (Soft peachy-pink)

**NEW!**-'Valentine Red' Shiny, dark green leaves with bright, fire engine red, double blooms. Mounding.

**NEW!**-'Yellow Stone' Loads of visual interest with faintly bicolored blooms that begin more yellowy and take on an apricot hue as they mature. Upright habit with medium vigor and deep, matte green leaves.

### TUBEROUS BEGONIA

4 Packs (Unless Noted)

1/2S. BW. Gorgeous Camellia-like blooms provide a brilliant display until frost. Morning or afternoon sun or a full day of filtered sun. Keep evenly moist and protect from strong winds. Remove faded blossoms and fertilize often to keep them in bloom. Tubers can be dug in the fall and stored over-winter.

**NEW!**-boliviensis hyb. 'Mistral' Series Large, eye-catching single flowers are the "go-to" choice for hanging baskets and trailing type planters. Excellent branching with elongated, dark green leaves. 10-12"H, 14-16"W

Colors include: Dark Red Pink Yellow

**NEW!**-boliviensis hyb. 'Marshmallow' This compact beauty has prolific single, two-toned white and blush blooms. Strong performance for smaller plantings. 6-8"H, 10-12"W

**NEW!**-'Fragrant Falls' Series Now we can not only have large, double flowers and a tidy habit built for the shade...there's also a delicious scent to go along with them! Ideal for baskets. 8-14"H, 6-8"W 4½" Pots

Colors include: Lemon Peach

-'Non-Stop' Series Double and semi-double 3" flowers. 8"H

Colors include: Appleblossom Deep Rose Deep Salmon  
Orange Pink Red White Yellow

**NEW!**-'On Top Sunset Shades' Novelty mixture of picoteed and ruffled 2-5" blooms in apricots, mangoes, and tangerines. Tolerates more heat and sun than other tuberous types. Mounding 10-12"H & W

# BEGONIA, Continued

## REX BEGONIA

4½" Pots

1/2S. BWH. These are also known as Painted Leaf Begonias. Grown for their beautiful, large, colored leaves. They have striking patterns in variations of pink, red, black, silver, and/or green. Pot into a loose, well-drained soil mix, avoid over-watering. Fertilize every two weeks in spring and summer. Also makes an easy indoor plant when given bright, filtered light and warm temperatures.

-'China Curl' Deeply twisting spiralled leaves have chocolate brown edges and a central band of silver with a deep pink layer faintly blurring between the two. Highly distinctive yet easy to blend in plantings. 14"H

-'Escargot' These attention-grabbing silver and olive green leaves swirl into the center like a snail shell giving the plant its name. Partially trailing. 6-12"H

-'Fairy' Part of the Fancy Leaf Large Series. Extra lg., bright multicolored leaves have burgundy margins, with mostly silver interior and green veins. 6-12"H

-'Fireworks' Wing shaped, iridescent silver leaves have metallic purple segments. This is one of our favorites! 12-18"H

-'Great American Cities' Series Tricolored leaves have contrasting colors in center, middle, and on leaf edges. Leaves are generally heart-shaped. 8-16"H

-'Cancun Christmas' Green outer ring, burgundy center with pink and white speckles throughout. More compact than the rest of series. 8-10"H

-'Maui Mist' One of the best pink shaded varieties, long pointed leaves.

-'New York Swirl' Crisp, dark maroon and black fingers mark the center of the curling snail shaped interior. Silver and pink leaves have a darker undulating leaf margin with irregular teeth along the edge. Exquisite!

-'Seattle Twist' Bright pink center, cream middle, green and pink edge.

-'Miralest' Part of the Bob Golden Collection, the leaves of this Begonia have a thick layer of deep green on the outside, pink in the middle, and almost black centers; splotched with white throughout. 12-18"H

-'Pink Banded Silver' Obvious bands of color make this variety a standout amongst the rest, changing from pink to silver then back to pink again.

-'Tie Dye' Deep red and green markings adorn these large, wavy-edged leaves. The blending of colors gives a neat tie-dyed effect. Less winter dormancy than other rex types (in case you wanted to keep it inside). 14"H

## BELLIS (Double English Daisy)

6 Packs

S, 1/2S. B. Yellow discs surrounded by ray flowers. Rosette shaped leaves make a nice ground cover. Tolerates cool weather. Well drained, reasonably fertile soil.  
-'Bellissima' Mix Robust, early flowering mix. A short-lived perennial hardy to zone 4. Abundant, large, fully double flowers. 6-10"H.

## BELLS OF IRELAND

6 Packs

S.  BCD. Green bells surround small, white, fragrant blooms. Makes a wonderful cut flower. Poor to average, sandy, well-drained soil. Combine with other green flowers for an interesting combination. Will self sow. Stake plants when small to avoid sprawling. 30"H.

## BIDENS (Spanish Needles)

3" Pots

S, 1/2S. BW. Clusters of typically yellow, 1¼"-1½" wide, daisy-like flowers. Lacy, deeply divided, soft lime-green foliage. Flowers are nectar rich, bloom from spring well into the fall and attract beneficial insects. A good brightener for containers and window boxes. Moderately fertile, well-drained soil. Keep evenly moist, not wet.

**NEW!**-'Popstar' Extremely large, 1½-2" sunny yellow flowers are bigger than most varieties. Mounding/compact habit, 8-12"H

**NEW!**-'Cupcake Banana Cream' Interesting bicolored variety with sunshine yellow and cream blooms that do not produce seed-making for a longer blooming season! Tidy, rounded habit. 10"H, 14"W

# BROWALLIA (Bush Violet)

Sizes Noted Below

S, 1/2S. BW. Bell-like flowers on bushy plants are quite attractive to hummingbirds. Pinch when 5" tall to promote branching. Moderately rich soil. Thrives in filtered sunlight.

**NEW!**-'Bells Jinglebell Mix' Mixture of blue and white shaded blooms with a bushy/semi-trailing habit; no pinching necessary. 10"H 6 Packs

-'Endless' Series Brilliant flowers bloom heavily all season long. Dense mounded habit. Beautiful in baskets or the landscape! 12-16"H, 10-14"W 3" Pots & Choice 4 Packs

Colors include: Flirtation (White) Illumination (Blue)

# CALENDULA (Pot Marigold)

6 Packs

S.  BCW. Bright double flowers bloom til frost. Deadhead for best results. Petals can be used to flavor and color cakes, salads, and dips. Any reasonable soil will do.

-'Bon Bon' Series 2-3" blooms on free flowering plants. Very early. 8-10"H

Colors include: Apricot Light Yellow Yellow

-'Pacific Beauty Mix' Large double apricot and lemon colored flowers. Heat tolerant. 24"H

-'Princess Mix' A mixture of 2-3" brilliant orange and yellow, mostly double, flowers with black or green centers. 18-24"H

-'Touch of Red' Series 2-4" Double blooms with petals tipped in red. 12-18"H

Colors include: Orange Yellow

# CALIBRACHOA (Million Bells)

3" Pots

S. BW. EXCELLENT! Small, rich-colored, petunia-like blooms explode over the plant all season. Very colorful. Self-cleaning. Heavy feeders, that like acid soil and high amounts of iron in their fertilizer. Attracts hummingbirds!

-'Aloha Kona' Series Early blooming series with very large tropical colored flowers. Compact, semi-upright habit is perfect for window boxes. 8-10"H.

Colors include: Blue Sky Dark Red Hot Orange  
Hot Pink Midnight Blue Neon  
Pineapple Yellow

# CANNA

4½" Pots

S. BW. Enormous leaves and large hot colored orchid-like flowers make this plant a stand-out when used in borders. Provide your Canna with a rich, moist, environment and the hummingbirds will follow! Feed plants monthly during the season, deadheading will encourage re-bloom. Can be overwintered in the same manner as one would a Dahlia.

*NEW!*-'South Pacific' Series Bred to be more vigorous and fuller with more basal branching. HUGE 4-4½" blooms all summer! Will withstand a light frost in the early fall. Scarlet was the AAS winner for 2013. 26-32"H (Scarlet 4-5'H), 12-18"W.

Colors include: Ivory Rose Scarlet

# *NEW!*CARDIOSPERMUM (Balloon Vine or Love-in-a-Puff)

6" Pot w/Trellis

S. BW. Weedy tropical vines named after their precious shiny black seeds which appear to have been hand-painted with a white heart. Their attraction lies not with their floral display but with the inflated ornamental balloon-like papery seed capsules. WE may not appreciate their small flowers but the beneficial insects sure do! Rich, well-drained evenly moist soil; keep watered during dry summer weather. These vines will NOT grow in the shade.

-halicacabum Greenish-white ¼" four-petaled flowers, followed by the lovely ¾-1¼" green pods (ripening to brown). Seeds can be saved and used as beads! Compound leaves look similar to tomato leaves. Give these mighty plants some support and watch them go! Vining 5-8'H

# CELOSIA

6 Packs

S. BCD. Hailing from the tropics these showy plants are named for their large, fiery, often flame shaped inflorescences. Plant in masses for a bold bedding display. Rich, moist, but well drained soil.

-'Smart Look Red' Plume type flower. Well branched, bushy habit with dark bronze foliage. Makes a wide based bush with large, deep red plumes. Outperforms others in extreme heat. 15"H

## CENTAUREA (Bachelor's Buttons)

6 Packs

S. 🌻BCD. Fluffy, pleasant flower heads. A long time favorite cut flower. Any well drained soil will do. Thin to 6-12" apart. Don't over-fertilize for best flowering, dead-heading is recommended, but will self-sow if allowed to mature. EASY.

-'Blue Boy' Clear blue, 2" blooms. 36"H

-'Emperor William' Heirloom. Single, lapis-blue flowers are abundantly produced atop sturdy, multi-branched stems. 2-3'H, 1'W.

-'Jubilee Gem' Dark blue, double flowers. Dwarf, bushy plants. 12"H

## *NEW!* CENTRATHERUM (Brazilian Bachelor Button)

6 Packs

S, 1/2S. 🌻BW. This interesting Brazilian native belongs to the aster family and has prolific blooms that are loaded with irresistible nectar for the butterflies and other pollinating insects! Its bushy shape is very useful in borders.

-intermedium 'Pineapple Sangria' RARE and unusual plant. Pineapple scented leaves with 3/4" fluffy button shaped lavender-blue flowers. Hundreds of blooms continuously, starting early summer until hard frost in the fall.

LOVES the heat and will tolerate dry conditions once established, prefers well-drained soil. 18-24"H, 24"W

## CHENILLE

3" Pots

S. HW. Long, soft, drooping cattails all year. Keep evenly moist. Heavy feeders, apply Osmocote in spring and summer. Bring indoors for winter enjoyment.

Keep in a sunny window. Easy and FUN! The kids love 'em.

-'Firetail' Fuzzy, red flowered tassels. 6"H

## CLEOME (Spider Flower)

6 Packs (Unless Noted)

S, 1/2S. 🌱BC. Tall dramatic plants. Unusual, fragrant, spidery flowers are borne singly or in clusters. A favorite of hummingbirds. Attractive in mass plantings. For best results, clip off seed pods as they form. Heat and drought tolerant.

-'Queen' Series Very large and showy plants with 5-6" clusters. Pink is an AAS winner. 4-6'H, 28-36"W

Colors include:      Cherry (Bright rose)                  Helen Campbell Pure wht)  
   Pink (Vibrant above blush below)  
   Violet (Vivid Purple)

-'Señorita' Series Monstrous plants that will never go to seed are a spectacular shrub-like display amidst the annual border. Awarded over 375 times! 2-4'H, 18-24"W 4¼" Pots

Colors include:      Blanca (Pure white)                  Rosalita (Lavender/rose)

-'Sparkler' Series The first hybridized series on the market. Full, bushy habit is not so overwhelming in smaller gardens. Blush is an AAS winner. 40-48"H, 2-3'W 4 Packs

Colors include:      Blush    Lavender  
   Rose (Vibrant rose)                  White (Bright white)

## COBAEA (Cup & Saucer Vine)

6" Pot with Trellis

S. 🌱BC. A charming visitor from Chili. Gorgeous adorning fences, arbors or any vertical element in your garden. Blooming midsummer til frost with handsome pest and disease resistant foliage; take care to not over-feed for maximum flower display. Outrageously large tea cup-shaped blooms span the entire length of the vine! Plants will need extra support and can engulf neighboring plants if happy.

-scandens 'Purple' Fragrant honey-scented blooms are a hummingbirds dream. Buds begin a creamy green changing to rosy-violet then rich purple. 20'+H

## COLEUS (Flame Nettle)

1/2S, S. BHW. Bright colored foliage for those shady areas. Superb potted plants. Will tolerate sun, but colors fade. Average soil. Remove flowers as they form.

### 6 Packs (Unless Noted)

-'Black Dragon' Large, dark red leaves with black edges. 12-14"H

-'Fairway' Series Well branched plants with an extra dwarf habit have vivid foliage colors and are versatile. They are well suited for use in baskets, landscapes, window boxes and planters. 8"H, 10"W

Colors include: Orange Rose

-'Giant Exhibition' Series Extra large leaves. Nice choice for growing indoors as a houseplant. 10-12"H

Colors include: Multicolored Palisandra Black  
Scarlet Magma

-'Kong' Series Huge leaves on mounded, well-branched plants. Color becomes more intense in the shade. 16-18"H, 15-18"W 4 Packs

Colors include: Red (Green backdrop, lava red-burgundy center)

Rose (Thick lime edge, magenta/crimson ctr)

Salmon Pink (Thick green edge, salmony brown interior)

Scarlet (Scarlet center, deep red with green edge)

**NEW!**-'Premium Sun Chocolate Covered Cherry' Thin, bright green edges surround large, vivid rose and deep mahogany leaves. Performs great in either shade OR sun! 12-14"H, 10-12"W 4 Packs

-'Versa Rose to Lime' Thrives in both the sun and shade. Vigorous, well-branched plants begin rose colored, eventually disappearing to reveal green edges with a cream center. 24"H 4 Packs

-'Wizard' Series Extremely dwarf and compact. Large leaved with uniform branching. 10-12"H

Colors include: Golden (Lemon-lime)

Mix (Includes 7 colors, excluding pastel)

Scarlet (Red with thick green edges)

Sunset (Apricot, orange & bronze)

# COLEUS, Continued

4½" Pots

**NEW!**-‘Color Clouds Hottie’ Background of lime green and golden with contrasting burgundy-red veins, centers, and stems. Lower, more wide-spreading habit is perfect for hanging baskets or as a groundcover. 10”H, 30”W

**NEW!**-‘Fancy Feathers Copper’ Dwarf, slow growing yet strong. Excellent edging plants. Feathery leaves have yellow tips w/ touches of maroon. 10”H, 23”W

**NEW!**-‘Main Street’ Series Earthy colored, large, wide leaves grow beautifully in sun or shade without fading. Medium vigor, upright habit. 14-18”H.

Colors include:

Abbey Road (Dark chocolate with green edges, 10-12”W)

Fifth Avenue (Mocha, green edges & peachy-pink inner, 10-14”W)

Sunset Blvd. (Rusty green, orange splotches, purple tips, 20-24”W)

Wall Street (Rich, sienna clay with purple tips, 14-20”W)

-‘Stained Glassworks Tilt A Whirl’ Highly serrated, round “tilting” leaves have a central yellow zone blending into the tangerine exterior with contrasting veins and matching thin yellow edges. Medium vigor and upright habit. 2-3’H

**NEW!**-‘Terra Nova Electric Slide’ Gldn yllw leaves are rimmed bright green and develop red veins as they age making the new growth pop out from the melee. Shorter internodes make a tighter, heavily branched habit. 2’H, 3’W

**NEW!**-‘Terra Nova Fiona’ Warm, uninterrupted rose-red leaves with undulating edges would provide an excellent textural accent for borders. Shorter internodes make a tighter, more heavily branched habit. 9”H, 30”W

**NEW!**-‘Wildfire Ignition’ Darker multicolored backdrop of slender leaves are interrupted by fiery bursts of red, pink, and yellow. Tighter, more heavily branched habit. Dense and bushy. 8-14”H, 14-24”W

# CONVOLVULUS

3” Pots

S. BW. Most captivating sprawlers. Use in front of the garden or in planters. Elegant when combined with white Lobelia. Allow to dry slightly in between waterings.

-cneorum Silverbush. Funnel-shaped 1½” white flowers with yellow centers. Silver foliage on bushy, upright, shrub-type plants. Silky accent plant. 12-18”H

-‘Morning Trails’ Pale lavender blue flowers close in the evening. No need for dead-heading. Drought tolerant when established, likes lime. Trailing habit, 5-6”H

# COSMOS

6 Packs (Unless Noted)

S. BC. Their name is Greek for beautiful. Tall, open branched plants which are popular for the back of the border or cutting garden. Attracts butterflies.

Average soil, will tolerate drier conditions. Deadhead and don't overfertilize for best flowering. Shelter from strongest winds or stake. Allow ample room.

 **NEW!**-atrosanguineus 'Black Magic' Chocolate Cosmos. Appropriately named for their unforgettable dark chocolate-like fragrance and velvety burgundy-red, almost black petals with dark brown centers. Some with double petals. Will overwinter if treated like a Dahlia tuber. 2'H 3" Pots

-bipinnatus Large flowers and finely cut foliage. Brings a light look to the garden.

-'Daydream' Pale pink with deep pink centers. 3'H

-'Double Click' Series Long-blooming plants with gorgeous, frilly, 2-3" pom-pom flowers. Double & semi-double blooms have sturdy stems. 2-3'H 4 Pks

Colors include: **NEW!**Bicolor Pink

Cranberries

Rose Bonbon

Snow Puff

-'Lemonade' Fresh, pale yellow petals and bright yellow eye diverge from the norm with a blurry wide band of white around the eye. An extra special touch to already beautiful flowers. 20-24"H

-'Psyche' Semi-double, frilly flowers. Uniform and free-flowering. 40-48"H

Colors include: Mix

White

-'Rubenza' Dark, ruby-red blooms mature to rosy-red. 3'H

-'Sea Shells Mix' Delicate foliage. Flowers have unique petals that each curve forming a tubular shape. Blooms are shades of white, pink, rose, and carmine. 3-5'H

-'Sensation' Series Large, showy, single flowers. 3-5'H

Colors include: Dazzler (Crimson-red)

Mix

Pinkie (Soft pink)

Purity(White)

Radiance(Deep rose with crimson)

-'Sonata' Series Single, 3" flowers with gold centers. Dwarf. 2'H

Colors include: Carmine

Pink

Pink Blush

White

-'Xanthos' Stunning, 3" soft pastel yellow flowers fade at the edges.

Long blooming with a compact, upright habit. 20-24"H

# CYNOGLOSSUM (Chinese Forget-Me-Not)

6 Packs

1/2S, Sh. B. A valuable splash of blue. Intense blooms rise above the plants in clusters. Spectacular with whites and pinks. Average, moist but well-drained soil is best; not overly fertile. Particularly suited for shady areas along northern or eastern facing exposures and is quite at home when nestled in between shrubs.

-'Firmament' Rich, clear blue flowers on bushy, compact plants. 15-18"H

## DAHLIA

S, 1/2S. BCW. Diverse and versatile plants. They typically have large, spectacularly colored blooms which are great for attracting butterflies and make wonderful cut flowers. Large, garden varieties begin blooming later than the potted types, starting in early summer til frost. Rich, well-drained, evenly moist soil is best.

4½" Pots

-'Dahlinova Hypnotica' Series Vibrant, eye-catching 4" flowers in unique shades. Plants are well-branched, uniform, and perform well in either containers or the landscape. Blooms from spring to fall. 12-26"H

Colors include:      Gold                              Rose Bicolor  
                                 Tequila Sunrise                              White

-'Dalina' Series Grande plants have big, vibrant, fully double flowers on thickly-branched; vigorous plants. 15-18"H, 12-18"W. Midi varieties are more compact with same thickly branched habit and slightly smaller flowers. 8-12"H, 6-8"W

Colors include:      Grande Emilio (Fiery Orange/Slight Yellow Center)  
                                 Grande Mendoza (Rich Coral/Pink)

***NEW!*** Grande Merida (Fiery red/white tips)

Midi Corsica (Bright Yellow)

Midi Mariana (Deep Scarlet Red)

-'Grandahlia' Series Vivid colored flowers are held above the canopy and bloom continuously throughout the season. Plants continue to produce buds during the entire lifespan of the plant. 18-24"H

Colors include:      Dark Red                              Yellow

-'Starsister' Series Bright flowers are semi-double with frilly interior petals. Large blooms stand out against shiny dark green leaves. 10-16"H

Colors include:      Red/White                              Scarlet/Yellow

# DAHLIA, Continued

## 6 Packs

- 'Figaro' Series Double blooms. Dark green leaves. Compact. 14"H  
Colors include:      Field Mix                      Orange Shades  
                         Red Shades              Violet Shades White                      Yellow Shades
- 'Fresco' Mix Dbl., brilliant colored blooms of red, violet, yllw, white & rose. 12"H
- 'Harlequin' Mix Mixed colors with bold stripes and frilly collars. Very showy!  
Dwarf. 10-12"H

## 9" Pots

- Large growing varieties for the garden and for cutting. Decorative type flowers are large, fully double blooms that show no central disc.
  - 'Aspen' Spiky, white, semi-cactus blooms w/creamy yellow centers. 14-20"H
  - 'Claudette' Deep, 5" fuchsia-violet decorative blooms. Tight habit is good for containers. 18-20"H
  - 'Dark Angel Dracula' Dark purple-black leaves with equally dark stems holding single, carmine-red flowers up above the foliage. 10-12"H
  - 'Ellen Houston' Dramatic, 3½" orng red blooms w/bronze leaves. 14-18"H
  - 'Firepot' Brilliant 4", coral-pink blooms with yellow centers. 18-24"H
  - 'Gallery Pablo' Decorative, fully double, 4" blooms. Orange at the tips and along the edges with yellow towards the inside; central eye is a deep orange. Compact, 10-14"H
  - 'Gogo' Series Large flowers and compact growth. Exceptionally strong stems do not require staking. "Mini dinnerplate" flowers are 4-6". 14-20"H
    - 'Peach' Light apricot-peach                      **NEW!**-'Pink' Soft pink
    - 'Purple' Rich magenta-purple                      -'White' Pure white
    - 'Yellow' Bright yellow
  - NEW!**-'Jowey Morris' Deep burgundy interior petals selectively fading outwards to pure white. 20-24"H
  - 'Karma Irene' Decorative. Bright, fiery orange-red. 6" blooms, 30-36"H.
  - NEW!**-'Melody Allegro' Complex blend of orange, salmon, pink, and pale lemon yellow with lilac-tinted reverse. Decorative blooms. 24"H
  - 'Munchen' Bright Yellow, 6" blooms. 24"H
  - 'Park Princess' Bright pink, 4" cactus type blooms have good stems for cutting. Compact habit fits well in the garden border. 24"H
  - 'Red Pygmy' Semi-cactus, 4" blooms are a burst of spiky red. 18-20"H
  - NEW!**-'Snow Country' Pure white 8" dinner-plate style blooms!! 40-44"H

## NEW! DAUCUS

6 Packs

S. BC. Average, well-drained soil. Keep evenly moist. Give them ample room to grow. Outstanding, long-lasting filler-type cut flowers! Harvest when the stems are stiffer and most of the flowers on the umbel are open.

-carota 'Dara' A colorful spin on the plain ole Queen Anne's Lace. Shades can be anywhere from blackberry/wine to soft cranberry and blush pink with an occasional white here and there. Each plant bears 7-15 strong, upright flower stalks with 4-6" umbels. 3'H, 24-28"W

## DELOSPERMA (Ice Plant)

3" Pots

S. BW. This drought-tolerant succulent forms clumping mats of fleshy green leaves. It makes a good groundcover, an interesting addition to annual containers, or a colorful touch arranged alongside other succulents. Average to well-drained, sandy soil is best. Hardy to zone 5.

-floribunda 'Starburst' This Plant Select winner has vivid, 2" magenta flowers with large white eyes, blooming from June until the fall. Attracts butterflies. 6"H

## DIANTHUS

6 Packs & 4 Packs

S. BWC. This genus of 300+ plants contains annuals for bedding, self-sowing biennials, and undemanding perennials for the rock garden. Their habit is generally low-growing with grass-like leaves. Blooms can be single, semi-double or double and come in many shades, either solid or multicolored; most being fragrant. Keep dead-headed for repeat blooming. Moist, rich, slightly alkaline soil is preferred.

-barbatus (Sweet William) Old fashioned cut flower. Very fragrant. Spectacular displays when planted in large groups. Shear after bloom to continue flowering. Being that these plants are biennials, they will bloom every other year. Zone 4.

-'Dash Mix' Compact, well-branched plants are strong and have straight stems. Bright, fragrant blooms are a wide range of five different colors. No staking necessary. 15-20"H, 12-14"W 4 Packs

## DIANTHUS, Continued

-chinensis (Annual Pinks) Named 'Pinks' because of their serrated petals, as if cut with pinking shears. Sweet smelling, lacy blooms all season. Attractive in the annual border, rock garden, and window boxes.

-'Diana' Series Early blooming, compact plants. Large, single flowers all season. 10"H x 10"W 6 Packs

Colors include:	Blueberry	Crimson
	Deep Rose Shades	Mix (not incl. Blueberry)
	Salmon	Scarlet

## DICHONDRA

4 Packs & 3" Pots

S. BW. A low, creeping plant with rounded, almost circular silver leaves that have white on the undersides. Cascading stems producing a waterfall-like effect when grown in containers or hanging from a stone wall.

-'Silver Falls' Vigorous growth. Displays a true cascading habit. Very drought and heat tolerant. Branches well without pinching. 4"H x 24"W

## DRACAENA (Spike)

3½" Pots

S, 1/2S. WH. Tall grass-like clumps have been used for accents in urns since the Victorian era. A mainstay for planters and memorial tubs. Can be used as a houseplant. Soil-adaptable. Tolerates hot, dry conditions. 18-24"H

## DUSTY MILLER

6 Packs

S.  BDW. Exquisite silver foliage provides welcome contrast in the border, container, or window box. Good dried decoration. Thrives in a hot, dry site. See "Senecio" listing also on page 55.

-'Silver Dust' Very fine-cut, silver-white foliage. 8"H

-'Silver Lace' Delicate, silvery-gray, lacy foliage. Like fine filigree. 6"H

## ENGLISH IVY

3" Pots & Choice 4 Packs

1/2S, Sh. WH. This foliage plant comes in many varieties with various leaf shapes and colorations. The leaves can be lobed, heart-shaped, or rounded and either plain green or variegated. They look great spilling over the edges of shady containers.

Green varieties:	'Duckfoot'	'Green Ruffles'
Variegated varieties:	'Glacier'	'Gold Child'
	'Gold Ingot'	'Lauren's Lace' (3" only)
	'Mint Kolibri'	'Yellow Ripple' (3" only)

## EUPHORBIA

3" Pots

S. 🌱 BCW. A charming plant that has become increasingly popular due to their unique flower heads. The flowers are actually cup-shaped, ornamental bracts borne beneath the true flowers. Euphorbias exude a white sap when the stem or roots are damaged which can irritate the skin. No need for deadheading with this plant, it is self-cleaning! Excellent in mixed planters and window boxes.

- 'Breathless Blush' One of the first dark-foliaged euphorbias on the market. This plant has stunning red-flushed leaves with blush pink and white flowers. Stocky, mounded plants display excellent heat tolerance. 8-12"H, 20-24"W
- 'Diamond Delight' Extra vigorous plants are extremely tolerant of adverse conditions. Double flowers make an already incredible plant stand out even more. 10-12"H
- 'Diamond Frost' This is the single most awarded plant that Proven Winners has ever introduced. Clouds of dainty white flowers. Full and airy habit. Exceptionally heat and drought tolerant. 13-16"H

## EVOLVULUS

3" Pots & Choice 4 Packs

S, 1/2S. BW Soft gray-green foliage and gorgeous blue flowers all season long. Keep evenly moist. Fertilize every ten days with a liquid bloom booster or apply Osmocote. No deadheading required! Protect from light frost in the fall.

- 'Blue My Mind' True blue with larger flowers over soft, silvery foliage. This plant loves it hot and will tolerate dry conditions once established. Will trail up to 24", 6-12"H

## FELICIA

4½" Pots & 4 Packs

S. 🌞 BWH. Masses of daisy-like blooms hover above fragile, succulent, fresh green stems; plant away from high traffic areas. Poor to moderately fertile, well-drained soil. Keep moist and feed every 10 days. May be brought inside for the winter.

-amelloides 'Astrid Thomas' Bright, cerulean blue flowers with yellow centers.

Much larger flowers than the species. Likes it cool. CHOICE!! 1-2'H 4½" Pot

-'Spring Merchen Mix' Dwarf, heavily branched variety with attractive 1¼" mostly sky blue blooms. Can also be pink, rose, or purple. 6-8"H 4 Packs

## FUCHSIA (Lady's Eardrops)

4½" Pots

1/2S, Sh. W. Petticoated blooms in many shapes and colors. Fuchsias do not do well in full sun. They prefer 3-4 hours of morning or afternoon sun. Keep moist at all times, but not soggy. Remove the berries as soon as they form.

-'Dark Eyes' Double, large, violet-blue with shining red sepals.

**NEW!**-'Heri Mochara' Double, deep purple flowers with white sepals. Upright, bushy habit and abundant blooms.

-'Holly's Beauty' Large, double, lilac flowers with porcelain white sepals.

-'Lavender Beauty' Double. Red sepals and lavender corollas.

-'Marinka' Single bright red flowers with darker crimson petals.

-'New Millenium' Double. Pink corollas with black sepals.

**NEW!**-'Orange King' Large, marbled double blooms of hot pink & apricot-orange.

-'Southgate' Double pale pink corollas and blush pink-white sepals.

-'Swingtime' Double. White corollas with red sepals.

**NEW!**-'Trudi Davro' Elegant, clean double white, outer petals fading to light pink.

## GAILLARDIA (Blanket Flower)

4 Packs

S. 🌞 BWC. This short-lived perennial blankets the ground with flowers continuously from June thru August. Native prairie habitat gives these a high tolerance for drought and poor soil conditions. Excellent for bedding. Deadhead regularly.

-'Arizona' Series Ultra compact, tidy, mounded habit. Single daisy-like flowers up to 4" wide. 8-12"H. AAS winning. Cut back in the fall to increase winter survival.

Colors include: Apricot (Apricot w/golden yellow edge, green eye)

Sun (Mahogany red w/yellow edge)

Red Shades (Crimson red)

# GAURA (Wand Flower)

3" Pots

S, 1/2S. BW. Profuse flowers resembling butterflies bloom most of the summer and are displayed above the foliage giving the plants an airy, ethereal look. Dead-heading is necessary for best flower production. Does best in well-drained sandy soil. Tender perennial.

- 'Belleza Compact Light Pink' Excellent branching with green leaves and short flower stems. Flowers range from an almost white/blush white to a soft-medium pink. Mounding 12-18"H
- 'Passionate Blush' So much interest provided by this plant, its new growth is burgundy colored and eye-catching flowers are deep pink appearing from ruby colored buds. Blooms are long-lasting. Compact, 18"H
- 'Rosyjane' Neat stands of willowy stems produce unique bicolored white and pink flowers unlike any other gaura. 24-30"H
- 'Siskiyou Pink' Brilliant rosy-pink flowers with white stamens. 18-30"H
- 'Snow Fountain' Blush-pink buds open to pure white flowers leaving traces of soft pink intermingling with the white. Masses of blooms hover above a heavily branched plant. 2-3'H
- 'Whirling Butterflies' Floriferous with bright white flowers. 18-36"H

# GAZANIA

6 Packs

S.  BW. These are desert plants, doing best in full sun, dry soil, and hot locations. Makes a nice edging. Showy daisy-like blooms open in sun and close in shade. Dead-head regularly. In winter these can be kept in a cool room w/a southern exposure.

- 'Big Kiss' Series Huge, 4½" wide flowers can be striped or solid. Flowers all summer on full, bushy plants that fill in fast. 8-10"H

Colors include: *NEW!*Mix (all colors plus white)      *NEW!*Orange  
Red (rich burnt orangy-red)      *NEW!*Yellow  
White Flame (creamy white w/pink stripes)  
Yellow Flame (yellow w/mahogany stripes)

- 'Gazoo' Show-stopping extra large, 3" flowers. Bright oranges, reds, and yellows with either clear or ringed blooms. Strong vigor in the ground. 10"H

Colors include: Mixture      Red with Ring

- 'Kiss Rose' Large flowers on short, sturdy stems, with dark green foliage. Mounded and uniform habit. 8-10"H

## GERANIUM, Continued

-Regal Geraniums (Martha Washington Geraniums) Unusual, showy, semi-double geraniums. Regals have eye-catching color patterns and make nice gifts. Use as a houseplant or for accent plants.

-'Elegance' Series Flowers early and into the summer. Self-branching, upright. 10-14"H

Colors include: Crystal Rose (Blush white with maroon center)  
Light Lavender Splash  
Purple Majesty (Deep purple with lilac)  
Red Velvet  
Rose Bicolor  
Royalty White (Pure white w/ pink center)

-Scented Geraniums Most scented geraniums bear small clusters of single flowers. All varieties have leaves that are scented and the fragrance is typically reflected in their name. Upright growing types are usually quite vigorous and benefit from frequent pinching to keep them bushy.

Scents include: Apricot 'Attar of Roses'  
Citronella Lady Plymouth (Mint rose)  
Lemon Peppermint  
Orange (Large, single, light lilac blooms)  
Strawberry Variegated Nutmeg

-Zonal Geraniums Brightly colored blooms on compact, floriferous plants. Leaves typically feature a band or "zone" of darker color, hence the name. Your classic Geraniums.

-'Americana' Series Boldly colored, large flower heads. 14-16"H & W

Colors include: Cherry Rose Coral  
Dark Red *NEW!* Dark Salmon  
Light Pink Splash Pink  
Salmon White Splash

-'Rocky Mountain' Series Strong, vigorous plants with outstanding garden performance. Their value is best shown in bedding applications, give extra space-every 18" as opposed to the typical 12" with other Zonals.

Colors include: Orange White

## GERBERA (Transvaal Daisy)

4½" Pots

S. BCW. Solitary, daisy-like flowers oozing with cheerfulness. They prefer rich, moist, well-drained soil. Heavy feeders! Pot one into a decorative pot for an excellent gift idea.

-'Revolution Mega Select Mix' Bushy plants are vigorous and perform well in large containers. Extremely large, brightly colored flowers, mostly having dark eyes. 12-16"H.

-'Mega Revolution Salmon Rose with Light Eye' Bushy plants are vigorous and perform well in large containers. Very large flowers. 12-16"H.

-'Sundayz Maxi Mix' Compact, sturdy plants designed specifically for use in containers. Lovely, 3-4" double flowers are long-lasting and slow to age. Lots of colors to choose from, some with dark eyes and some with light.

## GERMAN IVY

4 Packs & 3" Pots

S, 1/2S. BW. Lush, dark green, 2-3" ivy shaped leaves are fragrant when bruised. These plants LOVE to cascade- from planters, down window boxes, and below hanging containers. They provide an excellent backdrop for colorful annuals and are more heat tolerant than english ivies. Give consistent moisture for best results. Vigorous, trailing 4' or more! Makes a good houseplant as well.

## GOMPHRENA (Globe Amaranth)

6 Packs

S. BCD. Upright spikes of clover-like flower heads provide interest to dried flower arrangements and crafts. Average soil that is well-drained is ideal, will tolerate dry soil when established, but needs water during extended dry periods.

-'Qis' Series Qis stands for "quality in seed". Large, 1½-2" ball-shaped flowers of lilac, pink, purple, rose, and white from summer until frost. Strong, well branched stems. 20-24"H

Colors include:

Mix

Purple

## GRASSES, ORNAMENTAL

4½" Pots

S. BDW. Unusual colored foliage along with different textures add pizzazz to any arrangement. Good alternatives for that added height instead of the ubiquitous *Dracaena* or "spike".

☞-*Pennisetum* 'Celebration Fireworks' Strongly variegated burgundy, green, and hot pink foliage is full of flair! Color will intensify as summer progresses. Soft pink plumes arch up above the leaves. Provides interest well into fall. 2-3'H 4½" Pots

## HELICHRYSUM (Licorice Plant)

3" Pots (Unless Noted)

S. ☞BW. Attractive filler in borders and containers, the soft colors and oval leaves provide a wonderful neutral accent. Poor to avg., well-drained soil. Keep moist.

-'Icicles' Upright mound of silver foliage, slender needle-shaped leaves. Great as a stand-alone in a unique planter. 12"H Choice 4 Pks Also

-'Licorice' Series Licorice-scented leaves. Excellent semi-trailing/trailing habit.

-'Lemon' Bright, lime colored foliage. Slightly less vigor. 8-12"H, 24-30"W

-'Mini Licorice' (*Plecostachys*) Petite, pale bluish green leaves. 8-12"H, 12-20"W Choice 4 Pks

-'Splash' Variegated green and lime foliage. Vigorous grower! 12"H, 24-30"W

-'White' Silver-white felted leaves. Vigorous grower! 12"H, 24-30"W

## HELIOTROPE

3" Pots (Unless Noted)

S, 1/2S. ☞BCW. Colorful and very fragrant - so much so that it is farmed for perfumes. Smell is reminiscent of baby powder or vanilla. Deadhead to promote flowering, flowers are very attractive to butterflies. Performs best when shaded from the hottest sun. Heavy feeders. Rich, moist soil. Do not allow to dry out.

-*arborescens* 'White' Fragrant white blossoms. 18-36"H

-'Fragrant Delight' Deep purple flowers. 12-18"H

-*arborescens* 'Marino' Series Huge clusters of vanilla scented blooms, beginning earlier than the older varieties. Compact/medium vigor with excellent branching and an upright habit. 10-14"H, 12-18"W

Colors include: Blue *NEW!* White

-'Mini Marine' Very fragrant, large umbels, compact. 12-16"H 6 Packs

# IMPATIENS

1/2S, Sh. BW. Here's that needed color for the shade. Blooming all season long. Moist soil is ideal, allow to dry slightly between waterings. Water in the morning to help discourage the formation of mildew. Height is variable depending on conditions. EASY! Excellent in containers.

## Double Varieties-Choice 4 Packs

-'Silhouette' Series Mini, gorgeous rosebud type blooms sit above the foliage.

Early flowering, with uniform growth habit. 8-12"H & W

Colors include:	Appleblossom	Cherry Red	Red
	Rose	Salmon	White

## Single Varieties (Busy Lizzie)-6 Packs

*NEW!*-'Imara XDR' Series The first series with a proven resistance to Impatiens Downy Mildew! Thorough testing in the US & EU showed a strong performance in the garden all season long, even after being inoculated with the mildew. Mounding 10-12"H & W

Colors include:	Red	Rose	White
-----------------	-----	------	-------

-'Super Elfin' Series Large flowers, bloom continuously. Compact, spreading habit. 8"H

Colors include:	Blue Pearl (Pale lav-pink)	Bright Orange	Pink
	Salmon	Violet	White

## New Guinea Impatiens-4½" Pots

A good substitute for Geraniums if you have fungal problems on your blooms. New Guineas love fog and rain AND they tolerate more sun than regular Impatiens!

-'Magnum' Series Enormous flowers that will not fade during high temperatures. Strong performer with superior branching. 8-10"H

Colors include:	Clear Pink	Clear White	Fire
	Hot Pink	Lavender	Pink
	Purple	<i>NEW!</i> Red	
	Red Flame	White Blush	

*NEW!*-'Wild Romance Blush Pink' Beautiful, lush blooms have a few extra petals each and appear rose-like when first opening and gardenia-like when open all the way. Ideal for large containers and shady places, will tolerate more shade than standard New Guineas. 12-18"H, 10-14"W

# IMPATIENS, Continued

## Sun-Loving Varieties-4½" Pots

-'Sunpatiens Compact' Series An outstanding new and award-winning addition to the garden. Providing easy, continuous color all season in either the sun or part shade, they thrive in high heat and humidity. Avoid excessive fertilizer which would lead to less flowers. 14-32"H, 14-24"W. Can reach 3 feet tall when grown in the landscape.

Colors include:	Deep Rose	Fire Red	Orange
	Pink	Royal Magenta	White

# IPOMOEA (Sweet Potato Vine)

## 3" Pots (Unless Noted)

S, 1/2S. BC. Used as an attractive foliage filler for pots and window boxes, most varieties having rounded or heart-shaped leaves. Very versatile. Average, well-drained, evenly moist soil is ideal.

-batatas varieties

-'Blackie' Lobed, near-black foliage. 8-10"H

-'Margarita' Bright chartreuse, fan-shaped foliage. 10-12"H, 18-24"W

-'Sweet Caroline' Series Good vigor yet will not overgrow other plants when interplanted. Sweetheart varieties have heart shaped leaves. Bewitched varieties are more upright and more compact with a serrated margin. Dense and semi-mounded, 6-8"H when containerized, 18-24"H in the landscape.

Colors include:	Bewitched Green with Envy	Light Green
	Raven	Sweetheart Lime

-indica Morning Glory Vine. Tropical vine w/ stunning, 4" blue trumpet shaped flowers. May be kept as a houseplant in winter. Climbing & trailing 8-10'H 6" Pots

# ISOTOMA (Laurentia)

## 6 Packs

S. BW. A charming addition from the Bellflower family, this warm-weather annual has finely cut fern-like leaves and thin flattened tubular flowers from early summer until fall. Average, well-drained soil is best.

-'Tristar' Series Abundant star shaped flowers above lovely mounds of cushiony green, finely cut foliage. Flowers continuously throughout the summer. 8"H

Colors include:	Deep Blue	Sky Blue
-----------------	-----------	----------

# LANTANA

3" Pots

S. 🌱BW. Characterized by domed clusters of bright flowers that are attractive to both hummingbirds and butterflies. These plants thrive in hot weather and bloom profusely from spring until frost. Poor to average, well-drained soil. Fertilize often and dead-head spent blooms for best results.

-'Bloomify' Series The first Lantana series on the market to have certified, completely sterile flowers! Blooms are produced continuously without dead-heading! Ball-shaped, mounded habit. 12-20"H & 12-18"W

Colors include:        Red                                Rose

-'Lavender Weeping' Clusters of 1" wide, warm lilac flowers on trailing stems.

**NEW!**-'Lucky Lavender' Beautiful blush white and pink clusters with pale lemon colored florets towards the center. Plants have excellent branching and withstand stressful conditions with ease. 12-16"H, 12-14"W

-'White Weeping' Pure white, 1" flower clusters on trailing stems.

# LARKSPUR (Annual Delphinium)

6 Packs

S, 1/2S. 🌱BCD. Showy blooms for great color. Fertile, well-drained soil. Excellent cut flowers are also attractive to hummingbirds. Deadheading will prolong the bloom time, but will self-sow if flowers are allowed to set seeds.

-'Sublime Mix' Exceptional mix of colors is an improved strain of the Imperial series that is recognized worldwide as the best series for drying, as well as a wonderful choice for cutting. A wide range of nine colors are in this assortment. 3-4'H

# LAVATERA (Tree Mallow)

6 Packs

S. BC. Delicate Hibiscus-like blooms all season. Bushy habit is useful for hedges or as an accent plant in the border. Ordinary, well-drained soil. Planting in a soil that is too rich will yield few flowers.

-'Mont Blanc' Large, 4" pure white flowers have a lovely sheen. 24"H

-'Twins Hot Pink' A dwarf that is satiny with fully rounded, 4" flowers. Disease tolerant. Excellent cut flowers. CHOICE! 20"H

# LISIANTHUS (Eustoma)

4 Packs

S. BC. Elegant, chalice-shaped flowers with fleshy gray-green leaves. Best results will be achieved when planted in the ground rather than a container. Rich, well-drained soil. Likes lime. A must for the cutting garden! Will continue to produce flowers after first cuttings are taken.

**NEW!**- 'Arena 3 Red' Dark rose, 2-3" fully double blooms begin as soft green w/ pink edging. Blooms begin roughly 2 weeks after the Mariachi series. 2-3'H

**NEW!**- 'Doublini Mix' Petite 1½-2", double blooms look like mini-roses. Blue, rose-pink, and white. Spray type produces numerous branches per stem. 26-34"H

- 'Mariachi' Series Ultra-double, 3-3½" flowers. Great cut flower. 20-36"H

Colors include:      Blue                      Lavender                      Lime Green  
                                 Misty Pink                      Pure White

**NEW!**- 'Rosita 2' Strong stems and thick leaves, mid-sized rose shape blooms are long-lasting for cutting. 30-36"H

Colors include:      Blue Picotee                      Purple

# LOBELIA

S, 1/2S.  BW. Trailing types for window boxes and hanging baskets. Compact types for beds and borders. Moist, rich, well-drained soil. Needs shade protection in hot weather. Shear to promote blooms. The finishing touch!

3" Pots- Cutting Grown (Flowers all season!)

- 'Bella Mare' Compact growth and heat tolerance combine making this plant a great choice for containers. Large flowers with a predominant white eye are a knockout in baskets. Mounding. 12-18"H

- 'Laguna Sky Blue' Free blooming from spring through fall. Mounded and trailing. Heat and cold tolerant. 8-12"H

- 'Laguna Dark Blue' (Formerly Lucia) Cobalt-blue blossoms withstand the heat better than older varieties. Outstanding performance alone or interplanted, in bedding or in containers. Plants retain their shape and color all season. 6-8"H

- 'Magadi Basket Dark Blue' Mounded, thick-branching with outstanding summer performance and brilliant deep, dark color. Semi-trailing, 12-18"

- 'Techno' Series Early flowering, with a trailing habit. Heat types have an improved tolerance for summer conditions producing a more consistent blooming period. 6-10"H, 18-24"W

Colors include:      Blue                      Heat Dark Blue                      Heat White

## LOBELIA, Continued

6 Packs- Seed Grown

-'Crystal Palace' Deep blue flowers on upright plants. 6"H

-'Regatta' Series Extra early blooming. Trailing habit. 8"H

Colors include: Marine Blue Sapphire Sky Blue

-'Riviera' Series Compact, upright, ball-shaped plants with bronze lvs. 6-8"H

Colors include: Marine Blue Midnight Blue  
Sky Blue White

## LOPHOSPERMUM

4½" Pots

S. Fully-trailing vine that will perform all summer long. Large, trumpet-shaped flowers have long, slender stems. Pale green leaves have very serrated edges and will fill in to magnificently provide coverage for masking a post or other structural element. EASY.

-'Lofos Compact' Series Compact version of the traditional Great Cascade with the same high quality flowers and a habit that camouflages spent flower bracts nicely. Neat and tidy habit is quite vertical- a good choice for those slender areas that aren't wide enough to accomodate most other basket offerings. Trailing to 30"

Colors include: Rose White

## LOTUS (Parrot's Beak)

3" Pots

S. C. This trailing tender Mediterranean sub shrub is in no relation to the aquatic lotus plants. Excellent filler for container plantings. Will tolerate a wide range of growing conditions including dry/sandy soil and a pH that is acidic or alkaline. Plants grow best with average soil that is well-drained. Flowers are only produced when plants experience a cooling period beforehand.

-berthelotii Soft, silver-green needle-like leaves are arranged in whorls along the stems. Trailing/spreading 2-3' or more. 6-8"H

## LYSIMACHIA (Creeping Jenny)

3" Pots

S, 1/2S. BW. Shiny golden foliage brightens up gardens and containers. Great filler plants for combination containers. Average, moist soil. These are actually ground-covering perennials that are hardy to Zone 3. Easy!

-'Goldilocks' Miniature chartreuse, disc-shaped leaves on trailing plants.

Leaves will turn lighter yellow with more sun. 2-4"H

## MALVA (Mallow)

4 Packs

S, 1/2S. BW. Profuse, silken, hollyhock-type blooms all summer. Attractive in the border and naturalized garden. EASY. Good, well-drained soil in full to part sun. Cut spent flowers to encourage re-blooming.

-sylvestris 'Zebrina' Pale purple flowers have bold raspberry-purple veins radiating out from the center. 2-3'H

## MANDEVILLA/DIPLADENIA

6" Pot with Trellis

S. W. Large, morning glory-like blossoms on a twining vine with glossy, dark green leaves. Avg. to rich soil that is moist but well-drained. Blooms all summer and into the winter, where it makes a fine houseplant for a hot sunny window. In season, allow to dry slightly between watering and feed every two weeks with a liquid bloom booster; or apply Osmocote. Goes dormant in winter with some leaf drop. Keep much drier in fall and winter until new growth starts in spring. Loves it hot!!!

-'Pink Parfait' RARE! Large, dark green leaves. Rich pink, double flowers.

Hose-in-hose blooms have a wonderfully fruity scent!

-'Sundenia White' Mandevilla/dipladenia hybrid. Large 3-5" flowers have gold-nyllw throats. Glossy green leaves, compact-bushy habit with excellent branching.

-'Sun Parasol' Series Gorgeous blooms, glossy, green foliage. Natural climbers.

'Apricot' PHENOMENAL, giant 3-5" creamy golden peach blooms. A refreshing diversion from the norm. Vigorous habit & excellent branching.

Giant Group: Vigorous 3-5" flowers- later than orig. group. Lg.,coarse leaves.

Colors include:      Crimson                      Pink

Original Group: Compact growth, 2-3" flowers early, small rounded leaves.

Colors include:      Dark Red                      Pink                      White

# MARIGOLD

## 6 Packs

S. 🌻 BCW. Not boring anymore! Extremely versatile annual with many flower forms and heights. Blooms all summer. The dwarf varieties stand out in planters and the taller ones make a bold statement in borders (may need staking). A true garden workhorse. Deadhead for better bloom.

-African Marigolds Useful in large, formal beds. Big, flattened globe-shaped flwrs.

-'Garden Joy Mix' This disease tolerant series withstands the demanding summer stresses, no more collapsing in the rain. With 5" ball-shaped orange, gold, and yellow flowers. Strong branching structure. 24-32"H

-'Jubilee Diamond' Weather resistant, 4" lemon yellow blooms on sturdy stems. 18-24"H. An old favorite returns!

-'Lady' Series Large, 3-4" double blooms. 16-18"H

Colors include: First (Bright Yellow) Orange

-'Marvel' Series Excellent outdoor performance. Tight, 4" double blooms flower early in the season. 18"H

Colors include: Gold Yellow

-'Sweet Cream Vanilla' 3" creamy white flower heads. 16"H

-French Marigolds Prolific flowers and compact habits.

-'Durango' Series Extra large flowers on strong stems. 10-12"H

Colors include: Bolero (Golden yellow w/red tips) Red  
Flame (Mahogany w/orange edges) Yellow

-'Janie' Series Uniform, continuous blooms. Dwarf. 8-10"H

Colors include: Bright Yellow Deep Orange  
Flame Primrose Tangerine

-'Safari' Series Extra large, clear flat blooms. 8-10"H

Colors include: Orange Yellow Yellow Fire

-Triploid Marigolds Hybrids of African and French Marigolds. Sterile flowers don't put energy into forming seeds so they bloom profusely and continuously

-'Sunburst' Series Large, 3", single blooms. 14-16"H

Colors include: Mix Yellow Yellow Splash

-Signet Marigolds Compact plants with finely divided, lemon scented, fern-like foliage. Masses of small flowers cover these plants & would make nice baskets.

-'Tangerine Gem' Low, neat mounds of lacy leaves. Petite, dime sized, single orange flowers have a long blooming period and are edible. 12"H

-'Lulu' Charming, single, lemon yellow blooms. 8-12"H

## MATRICARIA (Feverfew)

6 Packs

S. 🌱 BCW. syn. Tanacetum. Closely related to Chrysanthemums, this plant has finely cut leaves. Often strong-scented. Bees and wasps dislike them and will avoid the area, take care not to plant them near other plants where pollination by bees is necessary. Excellent border plant and cut flower. Will self sow.

-'White Wonder' Double white blooms with yellow centers. 24" H

## MINI MIXED CONTAINERS

4½" Pots

Various blends of colorful, tough, attractive annuals. All you need is a decorative container and some soil and the rest is done! Easy care, but don't forget to feed and water for flowers all summer long.

-'MixMasters' Series Combinations containing Petunias, Calibrachoa, Lobelia, and Verbena in either complimentary or contrasting mixes. Uniform flowering time and vigor with excellent performance.

Mixes include:

-'Bejeweled' Yellow/Deep purple/Magenta

-'Color Magic' Bright yellow/Bright red/Dark blue

-'Eye Caramba' Deep purple/Purple with white eye/White

-'Fashionista' Dark blue/Hot pink/Burgundy

-'Flower Child' Burgundy/Sky blue/White

-'Gimme Some Sugar Improved' Hot pink/Pale yellow/Dark blue

-'Heartland' Bright red/Pure white/Sky blue

-'Jazzberry Jam' White/Burgundy/Deep purple

**NEW!** -'Rosé Everyday' Soft pink/Hot pink/White

-'Sunnyside Improved' Deep yellow/Pale yellow/Bright white

-'Sweet Escape Imp.' Pale yellow/Hot pink/Cherry red w/white eye

# MORNING GLORY/MOONFLOWER

6 Packs (Unless Noted)

S, 1/2S. BW. Vines for around the mailbox, for climbing up a trellis or fence, or for hanging from a planter. Will tolerate poor soil but prefers evenly moist conditions. A limited number of assorted 6" trellised pots will be available also.

- 'Blue Mixture' A mix of solid and striped blue flowers. 6-10'H 6" Pots Only
- 'Blue Star' Large blue flowers with white stars. 8-12'H
- 'Clark's Heavenly Blue' Large, sky blue flowers. Favorite. 8-10'H+
- 'Crimson Rambler' Crimson red flowers with white centers. 6-8'H
- 'Grandpa Ott' Very old variety. Dark purple with a red star.
- 'Milky Way' Large, white flowers with carmine-rose streaks.
- 'Moonflower White' Magnificent, fragrant blooms open at night. Blooms until first frost. 10-20'H 6" Pots Only
- 'Pearly Gates' AAS winner. Large, satiny white, daytime flowers. Grows 6-8'H
- NEW!** - 'Split Second' Loads of absolutely ravishing blooms! Unique, ruffled, delicate showpieces resemble peonies in shades of pale powdery pink to lipstick pink. 4-6'H Trellises Only

# MYOSOTIS (Forget-Me-Not)

3" Pots

S, 1/2S.  BW. One of the most beautiful spring plants. Compact, mat forming plants covered with dainty flowers. Biennial. Self-sows freely once established. Well-drained, moist acidic soil.

- palustris Bright blue flowers with small yellow eyes bloom from May thru August. Runner type roots that will spread up to 18". Keep soil moist. 6-8"H

# NASTURTIUM

6 Packs

S.  BW. Bright colors, climbers and dwarfs. Edible flowers add interest to salads - colorful and tangy, slightly spicy leaves are also edible and high in vitamin C. Soil should not be too moist or rich for best blooms. If nothing grows there, plant Nasturtiums! Keep watered during dry weather. Very easy, fun AND showy! Works just as well when grown in planters and baskets.

## NASTURTIUM, Continued

- 'Gleam' Series Large, fragrant, single and semi-double flowers. Trailing.  
Colors include: Golden Mix Orange
- 'Jewel Mix' A rainbow of brilliant yellow, red, orange, pink, chamois, rose and some bicolored double blooms. 12"H
- 'Ladybird' Dwarf, bushy plants have golden-yellow flowers with eye-catching bright red spots. 8"H
- 'Peach Melba' Bright, soft, cream-yellow colored blooms with maroon dots. Compact, mounding habit. 10"H
- 'Phoenix' Abundant blooms in fiery shades of gold, orange and red. Spaces in between the saw toothed petals lend a wonderfully messy appearance to the flowers. Bushy habit. 1'H, 1-1½'W 4 Packs
- 'Tip Top Alaska' Series Old fashioned, single, 2½" flowers. Silver variegated leaves. 10-12"H  
Colors include: Gold Mix Scarlet
- 'Whirlybird' Series Flowers sit open-faced on top of the stems and lack the typical black spur. Mounding habit. 12"H  
Colors include: Cherry Rose *NEW!* Mahogany Red Mix

## NEMESIA

3" Pots

S, 1/2S. BW. Tubular flowers borne on racemes. Starts flowering early. Shear to keep blooming. Use to soften container plantings, will drape over the sides. Average to rich, well-drained soil that remains moist is best. Transplant with care as these plants are brittle.

- fruticans 'Sunsatia Lemon' Very showy 1" flowers can be dramatic in multiple applications. Attractive mounded-spreading habit. Exceptionally cold tolerant. 6-10"H
- hybrida 'Angelart' Series Very showy, large fragrant flowers atop an upright, mounding habit. Vigorous. 8-12"H & W.  
Colors include: Orange Peach Imp
- hybrida 'Nesia Banana Swirl' Floriferous plants have large, delicately scented bicolor yellow and pink flowers. Bred for very good heat resistance with a compact/upright habit and excellent branching. 14-16"H

## NICOTIANA (Flowering Tobacco)

6 Packs

S, 1/2S. 🌱BCW. Very fragrant, old-fashioned flowers. Put where you'll enjoy them - along walks, around terraces or at doorsteps. Average soil. Easy. Often self-sowing and will attract moths and hummingbirds. Very popular!

-'Fragrant Cloud' Large, beautiful white flowers with a strong fragrance in the evening will attract various species of Sphinx Moths. 3' H

-'Nicki' Series Fragrant. Bushy plants. 20''H

Colors include: Lime Rose White

-'Perfume' Series Heavily-scented, upward-facing blooms are 2'' across and held above the foliage. A lovely choice for cut flowers. 16-20''H

Colors include: Deep Purple Red

-sylvestris 'Only the Lonely' White fragrant flowers all summer. 4½-5'H

## NIGELLA (Love-in-a-Mist)

6 Packs

S, 1/2S. BCD. Flowers seem to float above the ferny foliage. Interesting, inflated seed pods are good for drying. If seed pods are not desired, deadheading will prolong blooming. Will self-sow if allowed. Average, well-drained soil. Easy! Prefers the cool portion of the season so re-plant every month for continuous blooms.

-'Miss Jekyll Blue' Sky blue flowers. Bushy, 24''H

## OREGANO, ORNAMENTAL

3'' Pots

S. 🌱BDW. Excellent textural element for baskets, planters and rock gardens. Delicious fragrance is attractive to pollinators! Makes a lovely potted plant indoors or can be dried to use in arrangements. Plant in full sun and in lean, fast drying soil; drought tolerant once established. Cooler nights will intensify the color variation.

-'Kirigami' Incredibly unique and eye-catching! Bright apple-green foliage holds purple-green bracts and rose colored flowers. Dense, mounded-slightly trailing habit that is fuller than the standard ornamental varieties. 8-10''H spreads 12-14''

# ORLAYA (White Lace Flower)

6 Packs

S, 1/2S. BC. grandiflora. (White Finch) Pure white flowers resemble the blooms of lace-cap Hydrangeas. Delicate fern-like foliage. Long blooming, from summer through fall. Long-lasting cut flowers. Rave reviews from our gardener clientele! Take cuttings frequently to keep flower production going. 24"H

## OSTEOSPERMUM

3" Pots

S.  BW. Daisy-like flowers in iridescent colors. Glossy foliage. Blooms best during the cooler periods of the season but would continue to bloom longer if given a site that is protected from the strong mid-day sun. Average to poor soil that is light and well-drained. Feed weekly.

-'Margarita' Series Large flowers on well branched plants. Compact, 12-16"H

Colors include: Bronze Bicolor      Dark Pink  
Orange Flare      Purple

-'Tradewinds' Series Excellent branching, compact plants. Exceptional heat tolerance 12-16"H

Colors include: Cinnamon (Creamy white w/peach edge)  
Deep Purple

-'Voltage' Series This is the longest blooming Osteospermum available on the market, it exhibited very good heat tolerance in grower trials. Mounding/spreading habit. 10-16"H, 24-28"W

Colors include: White      Yellow

## OXALIS

4½" Pots

S, 1/2S. BWH. Grown for their light textured foliage and long blooming flowers. Foliage color may vary depending on light conditions. Mostly mounding habit intermingles well with other plants. Can also be used as a houseplant with great results, shear back stems if they get too long and leggy.

-'Charmed Wine' Mix of large, deep burgundy and black triangularly lobed leaves that have dainty lavender-pink or white flowers. 10-14"H

-'Zinfandel' Small dark, mottled maroon leaves with tiny yellow flowers. Sprawling habit is well-suited to hanging baskets. 6-10"H

# PANSY & VIOLA

## 6 Packs

S, 1/2S. BW. These irresistible faces are truly a sign of spring. Choose from our extensive selection. Masses of velvety color for borders, edging, and containers. Moist, fertile soil. Frequent deadheading keeps flowers coming. Will bloom all season if watered, deadheaded, and fertilized properly.

-Pansies Large flowers on compact plants. Assorted 6" pots also

-'Colossus' Series Huge, 4" blooms on compact plants. 4-6"H

Colors include:      Deep Blue w/Blotch      Lavender Medley  
                                 Neon Violet                      Tricolor  
                                 White                                      Yellow

-'Delta Premium' Series Now available as premium-bred for increased plant health and vigor. Large, 3" upright facing blooms. Some with faces. 4-6"H

Colors include:      Blue w/blotch                      Deep Blue  
                                 Marina (Blue shades w/dk blue eye)  
                                 Neon Violet                      Pure Primrose  
                                 Pure White                          Pure Yellow

-'Majestic Giants II Blotch Mix' Extra large flowers. Uniform habit. 8"H

-'Mammoth' Series Vigorous plants with large blooms. 6-8"H

Colors include:      On Fire (Red/orange with dark eye)  
                                 Sangria Punch (Deep rose/yellow with dark eye)  
                                 Viva La Violet

-'Matrix Amber Mix' Superior branching without stretching. Mixture of oranges, yellows, and lemons. 8"H

-'Ultima Morpho' This AAS winner shows color early and is a striking combination of blue and yellow. 6"H

-Violas Masses of small, brightly colored, fragrant flowers cover these plants. Assorted 6" pots also

-'Penny' Series Uniform habit and flowering. 4-6"H

Colors include:      Blue                      Citrus Mix                      Deep Marina  
                                 Denim Jump-up      Marina                          Marlies  
                                 Orange                      Orange Jump-up      Peach Jump-up  
                                 Primrose Picotee      Purple Picotee          Violet  
                                 White Blotch              Yellow Blotch  
                                 Yellow Jump-up

-'Sorbet Lemon Chiffon' Outstanding temperature tolerance. 6"H

# PETCHOA

4½" Pots

S, 1/2S. BW. A cross between a petunia and a calibrachoa. The results are flowers that are as abundant as a calibrachoa with the larger size of a petunia. Very tolerant of heat and adverse weather conditions, with no "breaks" between flowerings. Grow the same as you would a petunia.

**NEW!**-'Supercal Premium Cinnamon' Large vibrant pumpkin orange blossoms with a dark charcoal eye and lipstick rose edges; overall color fading with age. Not-sticky foliage. Medium vigor, semi-mounding 14-20"H & W.

# PETUNIA

S, 1/2S.  BW. The most popular of all annuals. Some are fragrant, varieties with the strongest fragrance tend to be colors that are darker and more saturated; like purple. Moist, well-drained, acidic, fertile soil. For best results water and fertilize often. Deadhead (the seed grown types) & pinch back for best flowering.

4½" Pots- Cutting Grown

-'Crazytunia' Collection Novelty petunias that are grouped together by their funky and/or unique colors. Habit, vigor, and flower size will vary.

Varieties include:

-'Blackberry Cheesecake' Trailing habit, vigorous, large creamy peach, pink, and burgundy flowers. 12-16"

-'Pulse' - Upright habit, vigorous, medium-large dark purple flowers with a pink and white star. 8-12"H

-'Razzmatazz' Cannot be over looked! Creamy yellow w/raspberry-pink and burgundy striping. Mounding/trailing, med. vigor. 12"H

-Grandiflora Hybrids Lg. flowers on mounding plants from early summer-fall.

-'Potunia' Series Tight, "bubble-like" habit makes for lush, flower-filled containers all season. Excellent mildew tolerance. Plus varieties are 25% larger. 6-10"H

Colors include: Plus Yellow

Starfish (White w/lilac star & dk eye)

-'Ray White' Incredible garden performance. Self-cleaning! Very large, attractive white flowers. Compact habit, 8-12"H

-'Starlet' Series Good choice for small pots and mixed plantings, flowers very early. Very good heat tolerance. Mounding/trailing. 6-10"H, 12-20"W

Colors include: Blue White

## PETUNIA- 4½" Pots, Continued

-Landscape and Spreading Hybrids Excellent for bedding, to fill in spaces in the border, in window boxes, or containers. No deadheading required!

-'Double Wave' Series Same high performance and versatility as in the Wave series, except with vibrant fully double flowers. 6-8"H, 18-24"W  
Colors include: Blue Velvet Pink White

-'Supertunia' Series A longtime favorite of growers and home gardeners. The large flowers have an irresistible fragrance, self-cleaning habit, and continuous bloom. 6-12"H, 1-2'W.

Colors include: *NEW!*Honey (Golden yllw) Royal Magenta  
Royal Velvet Vista Bubblegum

-'Surfinia' Series Vigorous, trailing plants can spread up to 8'W. Self-cleaning and more tolerant of wind and rain than other petunias. 5-7"H

Colors include: Heavenly Blue Red  
Rose Vein Deep Red

-Multiflora Hybrids Smaller flowers are more prolific than the grandiflora types and have a better tolerance to the elements. Strong stems with a slightly more compact habit as well.

-'Surprise' Series Large flowers atop lush, vigorous plants. Spreading/trailing growth. 8-12"H

Colors include: Blue Sky Yellow

-'Sweetunia' Series Unique blooms stand out from the crowd and begin early on. Upright-semi trailing habit with medium vigor. 8-12"H

Colors include:

*NEW!*Fiona Flash- Scarlet red with crimson highlights, black eye  
Johnny Flame- Neon purple edging with deep purple center  
Purple Spotlight- Thick white edge with deep aubergine center  
Suzie Storm- Crimson edging with deep burgundy center

### 4 Packs- Seed Grown

-Landscape and Spreading Hybrids Excellent for bedding, to fill in spaces in the border, in window boxes, or containers. No deadheading required!

-'Easy Wave' Series Compact, spreading habit. Flowers are 2-3". 6-12"H, spreads up to 3'W.

Colors include: Blue *NEW!*Rosy Dawn (Coral/wht eye)  
White *NEW!*Yellow

## PETUNIA-4 Packs, Continued

-'Evening Scentsation' 2017 AAS winner! As its name states the fragrance exuding from this petunia is sensational, especially at night. Blooms of a seldom seen lavender-blue are 2½". Mounding/spreading habit.

5-8"H, 30-36"W

-'Opera Supreme' Series Robust plants produce copious amounts of blooms covering the whole length of the stem. 12-15"H. Vigorous plants create carpets in the landscape, covering up to 12-15 square feet!

Colors include:      Blue                      Pink Morn              Purple  
   Raspberry Ice              White

-'Ramblin' Series Free flowering, more compact than other spreading types. 8-10"H, 2½'W

Colors include:      Neon Rose                      Nu Blue                      Peach Glo  
   Red                                      White

-'Shock Wave Denim' Vibrant, 1½-2" wide flowers are the earliest among the Wave series to bloom. Floriferous and self-cleaning with a manageable habit. Plants are quick to recover after rain. 7-10"H, spreads 2½-3'W

-'Wave' Series Ground hugging, spreading plants. Flowers are 2-2½". Very popular! 5-7"H, spreads up to 4'W!

Colors include:      Lavender                      Misty Lilac  
   Pink                                      Purple, Classic

## PHLOX

### 6 Packs

S, 1/2S. BW. Loose clusters of fragrant blooms decorate the garden, hummingbirds will soon follow. A nice plant for edging and mixed beds. Prefers fertile, well-drained soil and the cooler part of the season; may die out during intense summer conditions. Do not over water. Deadhead to prolong blooming and cut back to a few inches above the soil if they become leggy.

-'21st Century' Series An amazing dwarf, spreading, colorful ground cover. Flowers from early spring until frost. Compact habit. 10"H EXCELLENT!

Colors include:      Crimson                      Mix                                      Pink  
   Scarlet                                      White

# PLECTRANTHUS

3" & 4½" Pots

S, 1/2S, Sh. 🌱BW. A marvelous filler for containers or bedding. Being a member of the mint family the hairy, soft foliage is often aromatic when bruised. Dappled shade with average to rich, well-drained soil is best. They also make fine houseplants.

-coleoides 'Nico' Purple Swedish Ivy. This vigorous accent plant has colorful rounded, dark green leaves with purple venation. Thrives in sun or shade.

Deer resistant. Semi-prostrate habit. 8-10"H, 1-3'W. 4½" Pots

-'Velvet Elvis' Upright plants feature flower spikes covered with extra large speckled lavender florets similar to miniature orchids. Fuzzy, dark green foliage with rich purple color on the undersides. Excellent heat and drought tolerance. 28"H, 31"W. 3" Pots

# PLUMBAGO

4½" Pots

S. W. Blue, phlox-like flower clusters bloom all summer. Allow to dry between waterings. Feed every two weeks with Jack's or apply Osmocote every 30 days. Frequent pinching will help control the shape and is beneficial for the plant.

-'Imperial Blue' A heavenly shade of tropical cerulean blue not very often seen in nature. Sticky, 3-4" flower clusters appear first at the tips then on smaller side branches. Vigorous, sprawling plants can grow over 2' high & wide if unpinched.

# POPPY

6 Packs (Unless Noted)

S. 🌱BC. Dainty blooms all summer are perfect for bees that just love romping around inside gathering pollen. Sear stems after cutting for longer vase life. Light, well-drained, moderately rich soil. Loves our cool climate and is resistant to deer browsing. Some may need staking and most can be spaced 10" apart.

-nudicaule 'Wonderland' Mix Iceland Poppy. Very popular 4" wide, single poppies May-June, or longer if conditions are cooler. Tough, wind resistant strain that is short-lived but will self-sow. 10"H. 4-pack

-'Cherry Glow' Heirloom selection with stunning ruby red, tulip-shaped petals accented by a bright white interior. Classic silvery gray lettuce-leaf foliage. 2-3'H

## POPPY, Continued

- 'Frosted Salmon' Lush, salmony-pink peony type blooms seem straight out of a still life painting with their gorgeous ruffled texture. 2-3'H
- NEW!*-'Hungarian Blue' Lovely, lavender-violet heirloom variety that is extra vigorous with healthy foliage and strong stems! Large seed heads are filled with blue-black seeds just waiting for a bagel to be sprinkled upon!
- 'Peony Mix' Fully ruffled 4" blooms in purple, pink, scarlet, white & yellow. 2-3'H
- 'Lauren's Grape' Show stopping violet blooms with dark centers. 2-3'H
- 'Shirley Double Mix' All double, brightly colored blooms. 2½-3'H
- NEW!*-'Sissinghurst White' A selection maybe once gracing the famous white garden of it's namesake?! Elegant, finely pleated petals of pure bridal white with blue/green lettuce-like leaves that are worth showing off. 2-3'H

## PORTULACA (Moss Rose)

6 Packs

S. BW. Low-spreading sun lovers. Flowers will only open in sunny weather, deadhead to promote blooming. Thrives in sandy soil. Tough, drought tolerant plants can be used in sites where few other annuals will grow. Useful for edging along rock gardens or walls, or in containers.

-'Sundial' Series Huge, double flowers on compact plants. Very showy with vivid colors. Early and long-lasting. Low, 6" high, spreading to 15" wide.

Colors include: Fuchsia Mango Peach

-'Tequila' Series Tolerates cool, wet conditions better than other portulacas.

Spreading habit. 8"H x 14-18"W

Colors include: Mix Peppermint  
White Yellow

## PRIMULA (Primrose)

4½" Pots

S, 1/2S. ☀️HW. These compact yet showy plants produce loads of sweetly scented, long-lasting blooms. Great addition to mixed containers or as an extra special gift.

-'acaulis (vulgaris) 'Hethor Giant Mixture' HUGE boldly-colored flowers begin mid-early spring, excellent when paired in a shady woodland garden with bulbs. Winter hardy to zone 3. 4-6"H & 6-9"W

# RUDBECKIA

6 Packs

S.  BC. Huge daisies in a variety of rich, warm colors. In the right conditions, some may come up again in future years. Most are *R. hirta* hybrids. Average loamy soil. It's not summer without these beauties. Flowers all summer until frost!

- 'Autumn Colors' Shades of reds, yellows, and bronzes with flowers up to 5" in diameter! 20-24"H

**NEW!**- 'Butter Cone' Brilliant, 4" golden yellow, brown-eyed cone-type flowers. Weather tolerant and well-branched. 18"H (Replaces Tiger Eye)

- 'Cappuccino' Rust-colored, 4" flowers with yellow edges. 18-20"H

- 'Cherokee Sunset' Double and semi-double 4" flowers. A blend of sunset colors - golden yellow, orange, bronze, and mahogany. 24-30"H

- 'Denver Daisy' Large, 6-8" abundant golden flowers draw attention with distinct rings around their dark eyes. 22-26"H

- 'Goldilocks' Beautiful 3-4" bright golden-orange, daisy-like flowers that are mostly double; some are semi-double. 24-28"H

- 'Indian Summer' Bronze petals, red rings, and rusty red centers make an attractive contrast. 5" flowers. 36"H

- 'Marmalade' Large, golden yellow daisies with dark eyes. 18"H

- 'Prairie Sun' Very large flowers with yellow tips on golden petals and green centers. 28-32"H

**NEW!**- 'Sahara' Irresistible new addition! Chocolate centered blooms in muted shades of caramel, antique rose, and sienna. 18-24"H

- 'Sonora' 6" sunflower-like blooms with brown centers. 1-2'H

# SALPIGLOSSIS (Painted-tongue)

6 Packs

S. BC. Petunia-like, exotic blossoms with many contrasting veins or sometimes stripes; each one a velvety work of art on its own. Excellent as cut flowers and in mixed or container plantings. Transplant with care in fertile, evenly moist, well-drained soil. Protect from strong winds and give partial shade during the hot summer season for a longer blooming period. Weaker stems may demand staking.

- grandiflora 'Finest Mixture' Beautiful, rich colors. 36"H

# SALVIA (Sage)

4 & 6 Packs, 3" Pots (As Noted)

S. ☞BCW. Bright flowers on showy spikes. Red salvia is popular for patriotic red, white, and blue schemes. The blue salvias are often used in large bedding displays to tie in and soften other colors. Fertile, well-drained soil. Pinch to promote bushiness. Deadhead regularly.

-coccinea 'Summer Jewel' Series Early, profuse blooms continuously through the season. Dark, finer textured leaves add interest. 18"H 6 Packs

Colors include: **NEW!**Lavender **NEW!**Pink Red

-farinacea varieties Blue Salvia - even though it comes in other colors. Typically blue flowers on long graceful stems.

-'Cathedral' Series Full, well-branched plants with richly colored flowers. 18-24"H 3" Pots

Colors include: Deep Blue Lavender  
Shining Sea (Bicolor blue & white) Sky Blue

-'Evolution' Deep violet flowers on long, dense spikes. Well-branched habit. 18"H 6 Packs

-'Fairy Queen' Well-branched plants are long-blooming. Densely filled spikes of sapphire blue flowers are brushed with white. 18"H 6 Packs

-'Mystic Spires Blue Imp.' Extended outdoor performance makes for true blue flowers all season-plants still look beautiful at the end of sept.! A new growth pattern also hides the dead foliage underneath. 2-2½'H 3" Pots

-'Rhea Blue' Compact, even habit. 18"H 6 Packs

-'Victoria Blue' Extremely uniform spikes of color above green, shiny foliage. 18-22"H 6 Packs

**NEW!**-hyb. 'Rockin' Series IMPRESSIVE richly colored blooms on trouble free plants! Sterile genetics mean constant blooms all season. 24-48"H 3" Pots

Colors include: Deep Purple Playin The Blues

**NEW!**-x. longispicata 'Big Blue' Clear blue spikes cause a frenzy among pollinators. No dead-heading necessary! Vigorous and low maintenance. 2-3'H, 18"W 4 Packs

**NEW!**-x. longispicata 'Mysty' Everything we've come to love about Mystic Spires with slightly less vigor- great for mixed plantings. 12-18"H &W 3" Pots

-patens varieties Gentian Sage. Loose racemes of 2" long, deep blue flowers.

-'Patio' Series Compact plants with soft, green foliage. 12"H 4 Packs

Colors include: Deep Blue Sky Blue

-splendens 'Sizzler Red' Scarlet Sage. Bright spikes. Compact plants, 10-12"H 6 Pks

## SANVITALIA (Creeping Zinnia)

6 Packs (Unless Noted)

S, 1/2S. BW. Abundant, small, zinnia-like blooms cover this spreader until frost. Great in rock gardens, containers, or as an edging plant. Soil that is average to rich and well-drained is preferred but plants will tolerate dry and sandy soil.

Little fertilizer is required.

-'Mandarin Orange' AAS winner. This versatile variety has outstanding, 1" double orange flowers that with their dark center look like miniature sunflowers. 6"H

-'Million Suns' Prolific blooms of golden yellow daisies. Well-branched, mounded habit. 10"H

**NEW!** 'Sunvy Top Gold' Bright green-eyed yellow flowers hover above dark foliage. Tidy, upright habit. 8-10"H, 10-14"W 3" Pots

## SCAEVOLA (Fan Flower)

3" Pots

S, 1/2S.  BW. Spectacular fan-shaped flowers all summer! Great for attracting butterflies. Excellent, tough, showy plants for those who want something new and easy. Keep moist but be careful not to over water or over fertilize. A diluted solution of iron phosphate will deepen their color. Easy! No dead-heading necessary! Seashore native and deer tolerant.

-'Diamond' Bicolor blooms are lavender and white. 15"H

-'Scalora' Series' Virtually impervious to the summer heat! Durable, vigorous and well-branched. 8-14"H, trailing 12-24"W

Colors include:

**NEW!** 'Glitzy' UNIQUE, lavender and white with lemony yellow eye.

'Suntastic Yellow' Two-toned yellow and white with a darker lemon-yellow throat.

'Topaz Pink' Medium baby pink

**NEW!**-'Scampi' Series Compact, tidy habit is suitable for mixed containers as well as landscape plantings. Mounded. 6-10"H, 12-18"W

Colors include:      Blue                      Pink

-'Whirlwind Blue' Attractive deep green, cascading foliage with delicate 1" flowers that are almost constantly blooming. 8-12"H

# SENECIO

4½" Pots

S, 1/2S. 🌱BHW. This diverse genus belonging to the aster family is most often grown for a dramatic contrast with their foliage and not for their flowers. Fast growing and drought tolerant plants that can be treated as an annual or house-plant in our area. If bringing indoors keep in a bright, cool (45° min.) room and let dry between waterings during winter dormancy. Well-drained soil, water regularly until established; do not overwater. Feed lightly to avoid plant becoming leggy. Pinch to keep growth more bushy.

**NEW!**-candicans 'Angel Wings' Sensational broad, silky leaves of matte silvery/white beckon like a warm blanket. Their distinctive coloring, texture, and large size will attract attention wherever they're planted! Good choice for coastal gardens. 10-16"H & W

# SNAPDRAGON

6 Packs

S. 🌱BC. Long time favorites for the garden. Great colors! Plant en masse for a spectacular display. Blooming starts at the base of the spikes and moves upwards. Deadhead for repeated bloom. Very fertile, well-drained soil.

-'Liberty' Series Very early flowering with large, graceful spikes. 24-28"H

Colors include:	Crimson	Lavender	Mix (no lav.)
	Rose Pink	White	Yellow

-'Madame Butterfly Mix' Bright, azalea-like, double blooms. 24"H

-'Rocket' Series Long flower spikes. Heat resistant. 30-40"H Excellent cut flower!

Colors include:	Cherry	Lemon	Red
	Rose Shades	White	

-'Twinnny' Series First double flowering series with a low habit, basal branching keeps the plants looking full. Exceptional weather tolerance to both hot and wet summer growing conditions. Performs well in mixed containers and in the landscape. 12"H

Colors include:	Appleblossom	Mix	Peach
	Rose	Violet	White
	Yellow Shades		

## STATICE

6 Packs

S. BCD. A favorite cut flower, wonderful for drying - keeps its color well and resists shattering after processing. Harvest flowers when they are fully open and hang upside down to dry. Good for beginners. Average soil.

*NEW!*-‘Seeker Mix’ More uniform with a better color range than it’s predecessor, Pacific Mix. Strong stems produce 1½-3” flower heads in a very satisfying array of colors including blue, pastel blue, purple, white, rose shades, and light yellow. 24-30”H

*NEW!*-‘Qis Apricot’ The one color lacking in the above mix...a gorgeous blend of peachy-coral clusters. Clouds of 1½-3” blooms on strong stems. 30-35”H

## STOCK (Gilliflower)

6 Packs

S, 1/2S. BC. Deliciously scented racemes of flowers over soft blue-gray foliage. Looks great mixed in the perennial border or a seaside planting. They come into their prime in September. Stocks are a member of the Brassica family so it’s best to not plant them in the same place year after year. Rich, moist, well-drained soil.

*NEW!*-‘Mime Purple’ Strong stems showcase at least 55% double florets. Abundant deep purple blooms with slight shades of color variation add to the “wow-factor” in the cutting garden. Upright, green-leafed plants. 15-18”H, 6”W

-‘Vintage’ Mix Double & single blooms. Frost & heat tolerant. 18-22”H

## STRAWFLOWER

6 Packs

S.  BCD. Old fashioned favorite. Attracts butterflies. For dried flowers, cut stems before the blooms are fully open and hang to dry. May require staking. Average to dry, well-drained soil.

-‘Cut Flower’ Series Very large flowers on tall, sturdy stems. This series was selected specifically for its cut flower and drying characteristics. Colors include pink, yellow, red, orange, and white. 3’H

# SUNFLOWER

8" Pots

S, 1/2S. 🌻BC. These cheerful and familiar flowers twist to follow the sun. Attractive to seed-eating birds. Sturdy, yet should be planted on its own or at the back of the border as their roots give off a chemical that inhibits the growth of some plants. Well-drained soil. Also, check out our nice selections in the seed rack.

**NEW!**-'Sunfinity' This innovative new variety is vigorous and branching-producing many large, bright yellow flowers for 9-12 weeks!! Stronger tolerance to mildew than traditional sunflowers. In the garden it can get 3-4' high and 2-3' wide if adequate amounts of water are given.

# SWEET PEA (Lathyrus)

6 Packs

S. 🌻BC. These climbing vines bear clusters of fragrant flowers all season. Wonderful cut flowers. Keep blooms picked for best production. Mulch to keep roots cool. Side dress with 10-10-10 or Osmocote. Rich, deep, moist soil.

-'Mammoth' Series Large flowers on long stems. Early flowering and heat resistant. 5-6'H

Colors include:	Deep Rose	Lavender	Mid Blue
	Mix	Navy Blue	
	Slmn Cream-Pink	Scarlet	White

-'Old Spice Mix' Highly fragrant 1" blooms smell like orange blossoms. 5-6'H

# THUNBERGIA (Black-eyed Susan Vine)

4½" Pot

S, 1/2S. 🌻W. This graceful, old-fashioned plant has nearly triangular leaves and trumpet shaped flowers with flattened faces. Rich, evenly moist, well-drained soil. Protect from the wind. Blooms continuously ALL summer long. Fast growing!

-'Arizona Lemon Sunrise' Pale lemon yllw w/white edges. Dark black eye. 5-7'H

-'Arizona Rose Sensation' Breakthrough new color! Lovely shades of deep rose blooms with dark black eyes. 5-8'H

-'Lemon' (Formerly 'Lemon Star') Lemony-yellow with dark almost black eyes.

-'Sunny Susy Red Orange' Burnt red-orange centers fading to golden orange towards the tips.

**NEW!**-'Tangerine Slice A-PEEL' New unique coloration! Rusty orange, pinwheel-looking blooms with tangerine stripes and dark almost black eyes. 6-8'H

## TITHONIA (Mexican Sunflower)

6 Packs

S. 🌞BC. Daisy-like blooms which attract butterflies and make excellent long-lasting cut flowers. Fast growing and drought tolerant, they seem to ENJOY the extreme summer temperatures! Doesn't prefer soil that is too rich or moist. Blooms start in the summer extending through fall, deadhead regularly.

-'Fiesta del Sol' AAS winner. Intense, 2-3" dark orange blooms. Heat, wind, and pest resistant. Compact, cutting variety. 2-3'H

-'Goldfinger' Compact, upright habit. Vivid burnt orange-scarlet flowers are almost 3½" across and blooming all summer long. 24"H

-'Torch' (Red) AAS winner. Brilliant 3½-5" orange-scarlet blooms. Strong branching habit. Can become much larger with more thorough waterings. 40"H

-'Torch Yellow' The first yellow flowering Tithonia, 3" flowers have a central orange disc surrounded by golden yellow petals. 4-6'H

## TORENIA (Wishbone Flower)

4½" Pots

1/2S, Sh. 🌞BC. Foliage and growth habits like impatiens, but with a snapdragon-like flower. Moist, rich soil. Plants that are placed in afternoon shade will tend to have brighter flowers; if placed in too much sun foliage will have a bronzy cast. Feed twice a month in borders, weekly in containers. Hummingbird favorite! Low-maintenance and STUNNING!

**NEW!**-'Catalina Midnight Blue' Extra heat tolerant plants! Oversized, deep violet-blue blooms with a central lavender/lemon eye. 6-10"H, 8-10"W

## TRACHYMENE (Blue Lace Flower)

6 Packs

S. BCW. Formerly Didiscus. This little known Australian native has lacy flowers similar to Queen Anne's Lace. Summer blooms appear on curvy delicate stems, which may need light staking. Shelter from wind if possible and deadhead spent flowers for repeat blooming. Full sun to light shade with moist, well-drained, fertile soil. Fertilize monthly until well established.

-coerulea Long-lasting lavender blue umbels attract beneficial insects and make superb cut flowers, lightly fragrant. Space 8" apart. 2'H

## VERBENA

S. 🌱 BW. Rounded clusters of small, tubular flowers. A workhorse in the garden. Blooms all season long and is attractive to both butterflies and hummingbirds. Average soil that is well-drained and evenly moist. Regular deadheading will encourage repeat blooming. Self sows.

### 6 Packs-Seed Grown

-bonariensis Small, rose-violet blooms carried in 2-4" clusters, excellent as cut flowers. Blooms until frost. 3-4'H

### 3" Pots-Cutting Grown

-bonariensis 'Meteor Shower' Another impressive dwarf variety that has gained 20+ awards in no time at all. Long-lasting blooms provide an airy streak of color in plantings. Will grow in part sun. Upright. 20-30"H

-'Empress' Series This series is very tolerant of cold and heat, their trailing/spreading habit is useful in either bedding or container applications. Charme flower types have a lighter eye for a bicolored effect. Extra large flowers! 6-12"H, 18-36"W Flair types have a semi-upright, slightly more compact habit.

Colors include:      Flair Cherry                      Hot Pink Charme  
                                 Imperial Blue                      Soft Pink Charme  
                                 White

**NEW!**-'Firehouse Light Pink' Individual florets with a pure white eye and soft, blush pink outside make for a lovely effect. Bred to have a shorter cycle between blooms for more color! Superior garden performance with excellent powdery mildew resistance Mounded, 8-10"H, 18-22"W

-'Lanai Peach' Great mildew resistance. Flowers are 1-2" Excellent! Strong trailing habit. 6-10"H, 20-24"W

-'Lanai Purple Star' Great mildew resistance. Deep purple shaded, 1-2", clusters with a speckled white star thru each floret. Excellent! Strong trailing habit 6-10"H, 20-24"W

-'Superbena' Series Large, 2½" flowers are early to bloom on rounded-trailing plants. Vigorous and mildew resistant. 6-12"H

Colors include:      Dark Blue                                      Large Lilac Blue  
                                 Royale Chambray (Pale violet-blue)

# VERBENA, Continued

## Choice 4 Packs-Cutting Grown

-'Empress' Series This series is very tolerant of cold and heat, trailing/spreading habit is useful in either bedding or container applications. Extra large flowers! Sun types are specifically bred for filling up the landscape with fantastic outdoor performance, extra large blooms, and a reduced bloom cycle. 6-12"H, 18-36"W  
Flair types have a semi-upright, slightly more compact habit.

Colors include: **NEW!** Flair Burgundy Star

Lavender

Sun Red

-'Lanai' Series Great mildew resistance. Flowers are 1-2" wide. Premium varieties are striking novelty colors and patterns. Compact varieties are better for smaller containers with their mounded habit. 8-12"H, 12-14"W. All other colors have a strong trailing habit 6-10"H, 20-24"W. Excellent!

Colors include:

Blue

Bright Eye

Compact Lime Green (formerly upright)

Deep Purple

Neon Rose

Peach

Prem. Candy Cane

Prem. Twister Burgundy

Royal Purple with Eye

Red

White

-'Wicked Great Grape' Intense, eye-catching novelty pattern never-before-seen. Massive blooms with florets that are split into halves-a cool violet/purple on the inner side and a white with lavender edge on the outer side. Suitable for planters and hanging baskets. Compact, mounding plants. 12-18"H

# VINCA (Annual Periwinkle)

## 6 Packs

S, 1/2S. BW. syn. Catharanthus. Brightly colored five-lobed blooms appear similar to Impatiens. Shiny, dark green, simple leaves. These plants thrive in the heat and humidity, being native to Madagascar. Moist, rich, well-drained soil.

**NEW!**-'Mega Bloom' Series HUGE 3" flowers sit on top of the foliage for an outstanding show of color. Disease resistant. Both Halo varieties are AAS winners. Dense habit, 13-15"H, 10-12"W

Colors include:

Apricot

Burgundy w/Eye

Orchid Halo

Pink Halo

Polka Dot

**NEW!**-'Tattoo' Series Floriferous, well-branched plants. Fully rounded blooms have overlapping petals w/no gaps and a deep almost black eye. 10-14"H, 6-8"W

Colors include:

Papaya

Raspberry

# VINCA VINE

3" Pots (Unless Noted)

S, 1/2S. 🌱W. These trailing vines combine well in containers, baskets, and window boxes. Trimming will help keep them looking neat. Primarily grown for their attractive foliage they can be seen sprinkled with pale blue flowers in summer. Average soil and plenty of water, adapts well to most soil types.

-major 'Variegata' Almost sage colored-green leaves with irregular white markings that are splotched here, there, and everywhere. The new growth has touches of yellow mixed in. Will trail 3' or more! 4 Packs Also

*NEW!*-major 'High Color' Similar to the variegated type except with creamy yellow markings that are more uniformly dispersed. 12-18"W

*NEW!*-major 'Wojo's Gem' This showy variety has slightly wavy deep forest green leaves with unusually placed distinct lemon-yellow highlights towards the inside. Stems are also an interesting matching muted yellow color. 15-18"W

-minor 'Illumination' Most variable variety listed here-with leaf combinations containing lemon yellow, apple, and olive green markings. Stems are a yellow almost white in color. Hardy to zone 5! 4-8"H, 24-36"W

# ZINNIA

6 Packs (Unless Noted)

S. 🌱BCD. Unique flower forms with great color ranges. Attracts butterflies. Long-lasting cut flowers. Colors remain vibrant when flowers are dried. Blooms abundantly summer until frost. Deadheading increases bloom time. Average soil. Loves hot, full sun. Give space. For best results don't water late in the day. Keep foliage dry and provide good air circulation. Tall types will need to be staked.

-Dwarf Varieties Can also be used in containers. 10-18"H

-'Magellan' Series Vibrantly colored pom poms. 12-14"H

Colors include:	Cherry	Ivory	Mix
	Pink	Salmon	Scarlet
			Yellow

-'Profusion' Series Winners of many awards! 2" blooms on self-cleaning plants. Vigorous and disease resistant. 10-12"H

Colors include:	7 Color Blend	Double Deep Salmon
	Double Hot Cherry	Double Yellow
		Red

-'Zahara' Series Very large flowers bloom all summer. 12-18"H

Colors include:	<i>NEW!</i> Double Bright Orange	Double Cherry
	Double Fire	Double Strawberry
		Starlight Rose

## ZINNIA, Continued

### -Medium Height Varieties 20-30"H

*NEW!* -'Aztec Burgundy Bicolor' Fast to bloom with super healthy foliage.

Boasting 1½" double blooms, this award winner displays many bicolored variations in the deepest burgundy and rose hues; with dribs and drabs of apricot and white. 24"H 4 Packs

-'Burpeeana Giant Mix' Brightly colored quilled and ruffled petals. Huge cactus-type blooms are often 6" in diameter. 30"H

-'Canary Bird' Rich canary yellow dahlia type flowers. 20"H

-'Peppermint Stick' 3-5" striped & blotched blooms of scarlet, carmine, orange, and rosy purple. 30"H

-'Pop Art' Series Red striped blooms on disease resistant plants are festive and stand out in the garden. 2'H

Colors include: Golden & Red White & Red

-'Queen' Series Fully double 2½-3" blooms are marvelous! Both showing gradations of amazing color in a mostly monochromatic display with the addition of lime. Upright, well-branched plants supply a high number of stems. Orange is 2'H, Red is 2-2½'H

Colors include:

Lime Orange (AAS winner. Orange, peach, salmon, yellow & lime)

Red Lime (Magenta & lime center, cream, dusty rose & warm rose)

-'Will Rodgers' Scarlet blooms. 30"H

### -Tall Varieties 3-5'H

-'Benary's Giant' Series Extra large, fully double blooms. 30-40"H

Colors include: Bright Pink Carmine Rose  
Coral Halo Deep Red (Meteor)  
Golden Dawn Lilac

-'Miss Willmott' Big, fluffy, double pink blooms on long stems. 3'H

-'Royal Purple' Reddish purple dahlia type blooms. 24-36"H

-'Scarlet Flame' Giant mammoth type, scarlet blooms. 36-40"H

-'State Fair Mix' The largest flowered Zinnia. Complete range of colors. Stocky plants with thick leaves. 24-36"

# HANGING BASKETS

This year, Surry Gardens is offering a large selection of new and interesting hanging baskets. There is sure to be one that will meet your needs. We have plants for sun and shade, plants that will tolerate heat, cool, and wind; in addition to plants that will attract hummingbirds and butterflies.

Get your baskets early, they don't hang around for long.

To ensure that our hanging baskets beautify your surroundings all season, we recommend the following care. For general feeding, we suggest Osmocote brand time-release fertilizer pellets. (14-14-14) Apply at the time of purchase, and reapply every 4 to 6 weeks. The recommended amounts to add are as follows: 8" baskets - 3 tablespoons, 10" baskets - 5 tablespoons, 12" baskets - 7 tablespoons, 14" baskets - 9 tablespoons, and 16" baskets - 12 tablespoons. In addition to Osmocote, some varieties will need supplemental feeding of a water soluble fertilizer such as Peter's Blossom Booster or Miracle-Gro. These heavy feeders are noted in their descriptions. To keep your plants beautiful throughout the season, it is important to check water daily and remove all spent blossoms and seed pods. Keep in mind that once your basket has matured it would not be unusual for it to need watering more than once a day, especially if it is located in full sun or a windy area. All our baskets are priced on labels or on lists posted in each greenhouse.

Codes:            S - Sun                            1/2S - Part Sun                            Sh - Shade

## ABUTILON (Flowering Maple, Parlor Maple)

### 10" Baskets

1/2S. Old-fashioned plants have numerous bell-like flowers and velvety green, maple-shaped leaves. Pinch to encourage bushiness. These do well in hanging baskets or in containers and make great houseplants that bloom through the winter with enough sunlight. Outdoors they prefer morning or afternoon sun, avoid hot mid-day sun. Keep moist, but not constantly wet. Feed weekly.

-megapotomicum 'Variegatum' Yellow flowers are suspended from red calyces. Slender, mottled gold foliage.

# BEGONIA

## Assorted Baskets (As Noted)

1/2S. Gorgeous camellia-like blooms provide a brilliant display until frost. Morning or afternoon sun or a full day of filtered sun. Keep evenly moist and protect from strong winds. Remove faded blossoms and fertilize often to keep them in bloom.

- 'Amstel' Series Vigorous, floriferous plants. 12" H 8" Baskets

Colors include: Blitz (Yellow) Camilla (White w/ rose)  
Carneval (Orange & yllw) Clara (Bright White)

- 'Dragon Wing Red' Large, wing-shaped, glossy green leaves with brightly colored single flowers in abundance all season. 12-15" H 12" Baskets

**NEW!**- 'T'Conia Miss Malibu' Vibrant, oversized double orangy-red flowers bloom continuously in sun or shade. Strong branching and excellent performance. Semi-trailing habit. 8" Baskets

**NEW!**- 'T'Conia Portofino' Series Stunning, exceptionally large, resilient flowers sit above the highly contrasting dark green foliage. Superior branching. Mounding habit. 8" Baskets

Colors include: Citrix (Gold w/ hot orange) Hot Coral  
Salmon  
Sunrise (Lemon yllw w/ apricot) Yellow

- 'Illumination' Series Numerous, double and semi-double flowers angelically frame soft green leaves; cascading habit. 10" Mono & 12" Mixed Baskets

Colors include: Apricot Shades Lemon Orange  
Rose Salmon Pink

**NEW!**- 'Netja Dark' Semi-double, flamingo pink blooms. Dark, shiny green leaves. Upright habit. 8" Baskets

- 'Non-Stop' Series Double and semi-double 3" flowers. 8" H 10" Baskets

Colors include: Appleblossom Apricot Deep Rose  
JOY Yellow (Larger blooms, better branching)  
Red Yellow

**NEW!**- 'Orange Stone' Handsome, double deep orange blooms with shiny dark green leaves. Upright habit. 8" Baskets

- 'Rhine' Series Fully-double, peony-type blooms. 8" Baskets

Colors include: Berseba (Soft Pink)  
Borias (Soft, Antique Pink)  
Dragone Champagne (Soft peachy-pink)

## BEGONIA, Continued

-'Solenia' Series Fully-double flowers bloom all season. Vigorous, glossy dark green foliage. Proven garden performers. 10" Baskets

Colors include:      Apricot                      Orange  
                                 Velvet Red                      Yellow

***NEW!***-'Valentine Red' Shiny, dark green leaves with bright, fire engine red, double blooms. Mounding. 8" Baskets

***NEW!***-'Yellow Stone' Loads of visual interest with faintly bicolored blooms that begin more yellowy and take on an apricot hue as they mature. Upright habit with medium vigor and deep, matte green leaves. 8" Baskets

## BEGONIA, REX

Assorted 12" Baskets

1/2S. These are also known as Painted Leaf Begonias. Grown for their beautiful, multi-colored leaves. They have striking patterns in variations of red, black, silver, pink, and/or green. Avoid over-watering. Feed every 2 weeks in spring & summer. Also makes an easy indoor plant when given bright, filtered light and warm temperatures.

## BOUGAINVILLEA

10" Baskets

S. Exquisite paper-like bracts in stunning colors bloom all summer. Allow to dry slightly between watering. If extended wet weather occurs, be sure to bring your plant in out of the rain. Protect from wind. Needs full sun to flower and would benefit from trimming off spent flower stalks, allowing fresh flower bracts to develop significantly faster. Ask for our culture sheet.

-'Barbara Karst' New growth starts out red and becomes a dark hot pink with age. Full, thick growth.

-'Elizabeth Angus' Glossy green foliage and vibrant purple bracts. Full, lush habit.

***NEW!***-'Fire Opal' Brilliant, orange-gold bracts with bright green elongated leaves.

-'Flame' Small, more narrower green leaves that start out tinged red with bright brick-red colored bracts.

-'Imperial Thai Delight' Dark green leaves showcase one of the most interesting displays of color. Bracts that emerge white will develop pink shading towards the tips, pink coloration will be less prominent if grown with less than intense sun.

# CALIBRACHOA (Million Bells)

6", 8" & 10" Baskets

S. EXCELLENT! Small, petunia-like blooms explode over the plant all season. Very colorful. Self-cleaning. Heavy feeders, that like acid soil and high amounts of iron in their fertilizer. Let dry slightly in between waterings. Attracts hummingbirds!

- 'Confetti Garden Aloha Hawaiian Flamingo' Semi-upright to trailing. Vigorous growers. Tropical combination of intense violet pink, purple, and soft pink.

*NEW!* - 'Confetti Garden Aloha Hawaiian Nani Nouveau' Semi-upright, compact habit. Large, bold mix of golden yellow, midnight blue, and rose pink.

- 'Confetti Garden Aloha Kona' Series More compact growth than the Aloha series, semi-upright habit. Lg. flowers in cheerful tropical colors.

Colors include:

- Hawaiian Country-True blue, dark red, white
- Hawaiian Flamingo-Hot pink, soft pk., midnight blue
- Hawaiian Hilo-Dark red, pineapple, true blue
- Hawaiian Hula Lilli-Orange w/eye, hot pink w/eye, pineapple
- Hawaiian Kalani-Hot pink, orange, pineapple
- Hawaiian Luau-Tiki orange, red, purple
- Hawaiian Mahalo-Hot pink, dark lavender, cherry
- Hawaiian Summer-Dark red, pineapple, hot orange

- 'Confetti Garden Duo Bloomtastic Blossoms' This show-stopper has extra large, pale pink and lavender-blue blooms. Prominent, darkened eyes with central yellow star. Vigorous and heat tolerant.

- 'MixMasters Spring Showers' Beautifully soft complimentary colors in lemon, light pink, and sky blue. Exceptional branching keeps the center nice and full with flowers that stay open even on cloudy days. 10-12" W 8" only

- 'Trixi' Series This combination uses the vigorous Mini Famous series of calibrachoa. Floriferous plants are loaded with irresistible blooms.

Colors include:

- Party Favor (Blue, pink & white)
- Pretty Princess (Soft pastel, double blooms)

# CHENILLE

6", 8" & 12" Baskets

S. Long, soft, drooping cattails all year. Keep evenly moist. Heavy feeders, apply Osmocote in spring and summer. Bring indoors for winter enjoyment. Keep in a sunny window. Easy and FUN! The kids love 'em.

- 'Firetail' Fuzzy, red flowered tassels. 6"H

# CONVOLVULUS (Trailing Morning Glory)

8" Baskets

S. Most captivating sprawlers. Allow to dry slightly between waterings, will be drought tolerant once established. Apply a slow release fertilizer such as Osmocote or feed regularly once per week when watering (likes lime).

-'Morning Trails' Pale lavender blue flowers that close in the evening. Very pretty.

# EVOLVULUS

8" & 10" Baskets

S, 1/2S. Soft gray-green foliage and gorgeous blue flowers all season long. Keep evenly moist. Fertilize every ten days with a liquid bloom booster or apply Osmocote. No deadheading required! Protect from light frost in the fall.

-'Blue My Mind' True blue with larger flowers over soft, silvery foliage. This plant loves it hot and will tolerate dry conditions once established. Will trail up to 24", 6-12"H

# FUCHSIA (Lady's Ear drops)

10" Baskets

1/2S, Sh. Extremely popular hanging basket. Large petticoated blooms in many shapes and colors. Fuchsias do NOT do well in full sun it causes leaf discoloration. They prefer 3-4 hours of filtered morning or late afternoon sun. Keep moist at all times, but not soggy. During breezy or hot weather, they may need water twice a day!

Leaf and blossom drop are caused by:

1. Extreme changes of temperature or environment.
2. Allowing to get too dry or too wet
3. Keeping inside the home.
4. Too Much Sun!

-'Dark Eyes' Double, large, violet-blue with shining red sepals.

**NEW!**-'Heri Mochara' Double, deep purple flowers with white sepals. Upright, bushy habit and abundant blooms.

-'Holly's Beauty' Large, double, lilac flowers with porcelain white sepals.

-'Lavender Beauty' Double. Red sepals and lavender corollas.

-'Lisa' RARE! Fluffy double blooms with lavender corollas and bright rose sepals.

-'Marinka' Single bright red flowers with darker crimson petals.

-'New Millenium' Double. Pink corollas with black sepals.

## FUCHSIA, Continued

- NEW!*-'Orange King' Large, marbled double blooms of hot pink & apricot-orange.  
-'Seventh Heaven' This excellent trailing variety boasts magnificent, 4" creamy white and carmine-red flowers.  
-'Southgate' Double pale pink corollas and blush pink-white sepals.  
-'Swingtime' Double. White corollas with red sepals.  
*NEW!*-'Trudi Davro' Elegant, clean double white, outer petals fading to light pink.

## GERANIUMS

10" Baskets (Unless Noted)

S, 1/2S. Very popular hanging basket with good green foliage and profuse double or single blooms. Protect from wind. Can be brought inside in winter. Needs acidic soil - apply Miracid every week. Don't let go too dry. Water until pot drips, then pour off excess water from saucer.

-'Calliope Large' Series (Interspecific) Large flowers produced continuously all season long. The exceptional branching and superior vigor have garnered numerous awards for this series. Excellent heat tolerance as well. 12" Combos & Assorted 8" Baskets Also

Colors include:      Pink                      Salmon                      Scarlet Fire

-'Calliope Medium' Series (Interspecific) Less vigor than the large Calliopes yet with the same strong habit, heat tolerance, and large flower size. Assorted 8" Baskets Also

Colors include:      Pink Flame      *NEW!*Red

-'Contessa' Series (Ivy) Traditional ivy geraniums with semi-double flowers.

Colors include:      Dark Red                      Lavender (Amethyst)  
                                    Pink                              Red (Beach)                      White

-'Freestyle' Series (Ivy) Semi-trailing. Large, double flowers. Outstanding heat tolerance.

Colors include:      Arctic Red                      Orchid

-'Temprano' Series (Ivy) Early flowering plants have large double flowers with a slightly more compact habit.

Colors include:      Bright Red                      Pink (Flair)

## LOPHOSPERMUM

### 10" Baskets

S. Fully-trailing vine that will perform all summer long. Large, trumpet-shaped flowers have long, slender stems. Pale green leaves have very serrated edges and will fill in to magnificently provide coverage for masking a post or other structural element. EASY.

-'Lofos Compact' Series Compact version of the traditional Great Cascade with the same high quality flowers and a habit that camouflages spent flower bracts nicely. Neat and tidy habit is quite vertical- a good choice for those slender areas that aren't wide enough to accomodate most other basket offerings. Trailing to 30"

Colors include:

Rose

White

## MANDEVILLA/DIPLADENIA

### 10" Baskets

S. Large, morning glory-like blossoms on a twining vine with glossy, dark green leaves. Blooms all summer and into the winter, where it makes a fine houseplant for a hot sunny window. In season, allow to dry slightly between watering and feed every two weeks with a liquid bloom booster or apply Osmocote. Goes dormant in winter with some leaf drop. Keep much drier in fall and winter until new growth starts in spring. Loves it hot!!!

-'Pink Parfait' RARE gem! Large, dark green leaves. Rich pink, double flowers. Hose-in-hose blooms have a wonderful fruity scent.

-'Sun Parasol' Series Vividly-colored blooms. Glossy, green foliage.

'Apricot' PHENOMENAL, giant 3-5" creamy golden peach blooms. Vigorous habit with excellent branching. Coarse foliage.

Original Group: Compact growth, 2-3" flowers, small rounded leaves, natural climber.

Colors include:

Dark Red

Pink

White

# MIXED HANGING GARDENS

## 10", 12" & 14" Combo Baskets

S, 1/2S. Various blends of hanging baskets planted with a combination of colorful, tough, attractive, trailing annuals for easy care all summer. Sizes range from 10" to 14" and they are priced individually. Some are offered in decorative cone-shaped mixed media style baskets. Don't forget to water and feed!

-'MixMasters' Series Combinations containing Petunias, Calibrachoa, Lobelia, and Verbena in either complimentary or contrasting mixes. Thoroughly trialed to ensure uniform flowering time and vigor. 10" & 12" Only

Mixes include:

'Bejeweled'/'Gimme Some Sugar Imp'- Bold yellws & purples, shades of pink

'Rosé Everyday'/'Eye Caramba'- Pinks and purples splashed with white

'Color Magic'/'Heartland'- Contrasting bright colors

'Flower Child'/'Jazzberry Jam'- Mostly purples & whites set off w/lt blue

'Fashionista'/'Sweet Escape Imp'- Mostly cherries & pinks w/yllw & blue

'Spring Showers'/'Sunnyside Imp'- Soft lavender, pink, yllw, lemon & white

# PETUNIA

## 12" Baskets

S, 1/2S. The most popular of all annuals. Some are fragrant. Moist, well-drained, acidic, fertile soil. For best results water and fertilize often. Deadhead and pinch back for best flowering.

-'Double Wave Pink' Same high performance and versatility as in the Wave series, except with vibrant fully double flowers. 6-8"H, 18-24"W

# PLUMBAGO

## 10" Baskets

S. Blue, Phlox-like flower clusters bloom all summer. Allow to dry between waterings. Feed every two weeks with Peter's or apply Osmocote every 30 days. Frequent pinching will help control the shape and is beneficial for the plant.

-'Imperial Blue' A heavenly shade of tropical cerulean blue not very often seen in nature. Sticky, 3-4" clusters appear first at the tips then on smaller side branches of these vigorous, sprawling plants. Can grow over 2 ft. if unpinched.

## STREPTOCARPELLA

6", 8" & 10" Baskets

1/2S. Delightful mini Cape Primroses dance above attractive velvety-green foliage. Related to African Violets and Streptocarpus. One of our most popular hanging baskets. Allow to dry slightly between watering. Prefers morning or late afternoon sun. Bring inside before frost and keep in a warm, south window. Be careful not to over water in the winter and not to wet the foliage. Deadhead.

-'Good Hope' Numerous blue flowers. Small leaves.

## THUNBERGIA (Black-eyed Susan Vine)

6" Mono. Baskets (Limited Quantities)

8" Mono. Baskets

10" Mono. & Mixed Baskets

S, 1/2S. This graceful, old-fashioned plant has nearly triangular leaves and trumpet shaped flowers with flattened faces. Rich, evenly moist, well-drained soil. Protect from the wind. Blooms continuously ALL summer long. Fast growing!

-'Arizona Lemon Sunrise' Pale lemon yellow with white edges and a dark black center. 5-7'H

-'Arizona Rose Sensation' Breakthrough new color for Thunbergia! Lovely shades of deep rose blooms with dark black eyes. 5-8'H

-'Lemon' (Formerly 'Lemon Star') Lemony-yellow with dark almost black eyes.

-'Sunny Susy Red Orange' Burnt red-orange centers fading to golden orange towards the tips.

**NEW!**-'Tangerine Slice A-PEEL' New unique coloration! Rusty orange, pinwheel-looking blooms with tangerine stripes and dark almost black eyes. 6-8'H

# VEGETABLES

Plant a Victory Garden and win the war against the high cost of fresh veggies! Locate your vegetable garden in an area with full sun and fertile, well-drained, moisture retentive soil. An excellent guide for beginning is the Maine Organic Farmers and Gardeners Association's (MOFGA) Technical Bulletin 1: Basics of Organic Vegetable Gardening, which can be viewed and printed at:

[www.mofga.org/Publications/FactSheets/tabid/133/Default.aspx](http://www.mofga.org/Publications/FactSheets/tabid/133/Default.aspx)

\*\*Any featured All America Selections Winners will be abbreviated as follows: AAS Winner

## ARTICHOKE

4 Packs

Attractive, ornamental plant with edible flower buds. Cook and serve with basil and melted butter. Check an Italian cookbook for recipes of stuffed artichokes. Harvest buds before they open. Plant in full sun spaced 3' apart. Fertilize heavily and your patience will be rewarded!

-'Imperial Star' 85 days. Six to eight, 3-4" flower buds per plant.

## ARUGULA

6 Packs

*Eruca vesicaria sativa*. Both leaves and flowers can be used to add a peppery bite to sandwiches and salads. For a continuous supply, successive plantings are recommended. Standard salad Arugula can be harvested at 21 days for baby greens and at 40 days for full size, harvest whole plants or individual leaves. Flowers are white with dark pink veins. Plant in fertile, well-drained soil, keeping the soil moist will help slow bolting. Arugula prefers cool conditions and may even over-winter if given enough protection. Use row covers to avoid troubles with flea beetles.

# ASPARAGUS

## 1 Dozen Roots/Bundle

Long lived perennials. Correctly planting the roots will yield large future harvests. Set roots (fanned out) in a trench 6-8" deep, 8" apart for thin spears, farther apart for thicker spears. Cover with a 2" layer of compost rich soil to provide nourishment for years. Gradually fill in the trench as the plants grow. Harvest very lightly the second year, freely thereafter. In spring, cut the spears with a sharp knife at the ground level. After harvest, allow plants to have mature foliage thru the fall. Cut dead foliage after frost. Ask for our culture sheet with a diagram and more detailed information.

- 'Jersey Knight' Large, succulent spears with excellent flavor. Resistant to rust, crown rot, and fusarium. Vigorous and better adapted to heavy clay-like soils.
- 'Jersey Supreme' High yields and great taste. Succulent spears are more uniform than other Jersey hybrids. Disease resistant and tolerates most soils.
- 'Purple Passion' Unique and attractive purple color with milder flavor and a tenderness that is lacking in other varieties. This variety grows best spaced at 6-8".

# BEAN

## 6 Packs

One of the easiest vegetables to grow at home, large yields with minimal effort make them great for beginners! They prefer well-drained soil, take care not to over-fertilize or disturb the shallow roots. Space bush beans generously to promote good air circulation. Pole beans will need support to climb. Harvest frequently to promote new pod growth and plant fresh seeds every 2-3 weeks for beans all season long.

- Romano Types Characterized by their wide, flat meaty pods.
- 'Capitano' 62 days. Yellow, bush type. Delicious, full flavor with a smooth, tender texture. Upright plants bear 4½-5" pods heavily.
- 'Furano' 54 days. Bush type. Medium, flat, dark-green pods are slightly longer than Roma II at about 6"; their low fiber content lends an excellent eating quality. Upright plants keep beans up & off the ground.
- 'Musica' 67 days. Pole type. This plant produces masses of huge beans over a long period. Delicious, bright green, 7-8" long pods remain very tender even at their largest size. 6'H
- 'Roma II' 58 days. Bush type. Medium green, flat pods are ~6" long with a robust flavor. Stringless pods. Sturdy, high-yielding plants. Unbeatable for freezing or canning.

## BEAN, Continued

- 'Maxibel' 55 days. Green, french (Haricots Verts)/filet type. Sturdy, bush type, 22-26" H. Concentrated sets of high-quality, slender, 7" pods with unsurpassed bean flavor. Crisp and stringless!
- 'Scarlet Emperor' 75 days. Runner type, climbing. These beans will tolerate partially shaded conditions better than other bean types. Scarlet-orange flowers attract hummingbirds. Sweet, juicy 6-8" pods. 8-10' H
- 'Seychelles' 55 days. Green pole type. One of the tastiest, earliest, and most productive pole beans. AAS winner for its uniformity, flavor, and texture. Heavy crops of tender, stringless beans are enjoyed best at ~4" long but are still crunchy and delicious at 5-6". Healthy plants will reach 7-9' tall!

## BEET

6 Packs

Another crop that we just CANNOT do without. Tasty greens and pickled roots make this a necessary component for the vegetable garden. With the ability to produce plentiful crops in containers, in ground early on, hydroponically in water, or under high tunnels in fall; these gorgeous workhorses are the epitome of versatility in the garden and the kitchen. Light, loamy soil with a high pH is best. Keep plants well watered during dry spells to prevent scab. Thin plants after planting by eating young greens as they grow or by snipping extras leaving at least 3" in between.

**NEW!**-'Avalanche' 55 days. AAS Winner. Round roots are a beautiful snow white that won't stain your hands or your cutting board! Mild and sweet in flavor without that slightly bitter aftertaste beets can have. Harvest when 2<sup>3</sup>/<sub>4</sub>-3".

## CELERY

6 Packs

Crunchy texture and distinctive flavor makes this a popular addition to salads and many cooked dishes. Give these plants fertile soil and consistent moisture for best yield. As celery plants grow, mound soil up to blanch lower stems, if desired. Celery can be harvested when stalks are at an edible size.

- 'Tango' 80 days. Similar to Conquistador but the flavor is better and the stalks are more tender. Performs well under less than ideal growing conditions, will tolerate heat and moisture stress. Space 6-8" apart.

# COLE CROPS

Broccoli • Brussels Sprouts  
Cabbage • Cauliflower • Kale • Kohlrabi

6 Packs

Members of the mustard family. Our mild Maine summers allow us to grow these cool season plants. Plants are typically heavy feeders but have various nitrogen requirements. Top-dress each seedling at planting time with a handful of wood ashes to discourage root maggots. Collars will prevent cut worms and BT will prevent cabbage worms.

**Broccoli-** Contains more calcium than milk! Use lime to enrich the soil with calcium and give plenty of moisture. Mix varieties for an extended season. A second planting by July 15th will provide a nice fall crop. Space with 8" in between plants in rows 18" apart.

- 'Arcadia' 86 days. Large, blue-green heads on tall, heavy stems. High yielding. Developed for close spacing. A staff favorite!
- 'Aspabroc' 50-60 days. Aka Broccolini. Tiny broccoli heads precede multiple side shoots, which are produced for a month longer! The shoots resemble broccoli raab with an asparagus-like stem. Tender & tasty. Can be planted tightly.
- 'Belstar' 66-75 days. Blue-green 6" heads are densely packed with florets. Flower heads are held up higher for easier harvesting. This variety is ideal for both spring and warm-weather planting. Excellent field holding capacity.
- 'Green Magic' 57 days. Smooth, well-domed heads. Very uniform at maturity.
- 'Premium Crop' 58 days. An AAS winner. Large plants with firm heads and small, dark green buds.

**Brussels Sprouts-** These delectable beauties can be finicky to grow. Some tips that are important: Start by selecting a good, strong fertilizer that contains the micronutrients boron and magnesium. Give plenty of moisture at planting and while plants are establishing a root system. When weeding avoid cultivating too deeply, this would disturb the roots. When the sprouts towards the bottom are 1/2-3/4" in diameter pinch out the plant's growing tip to force the remaining sprouts to develop evenly, about 4 weeks. Space 18-24" apart.

- 'Jade Cross' 85 days. AAS winner. This outstanding selection has medium, firm dark green sprouts with excellent flavor. Early and very productive, tolerates heat stress.

**Cabbage-** Try homemade sauerkraut this year. Tasty slaws too! Plant 15-18" apart. Install floating row covers at planting to protect against flea beetles.

-'Miletta' 88 days. Savoy type. Excellent, very dark, blue-green leaves that are heavily savoyed. Round heads are uniform, weigh in at an average of 3½ lbs. and resist splitting after maturity. Best choice for cooked cabbage dishes.

-'Ruby Perfection' 85 days. Very popular for storing, will keep several months. Measuring 8" across these perfect, globe-shaped beauties are dense with a deep, purple-red color. Weighing 3-4 lbs.

-'Stonehead' 50 days. Heads are round, about 6" in diameter with short cores. Solid and slow to bolt.

-'Rubicon' 52 days. Napa type. Full sized heads weigh in at 5½-6½ lbs. with broad white ribs and creamy yellow interior. Slow to bolt. Delicious flavor is juicy, sweet, and tangy. Space 12-18" apart.

**Cauliflower-** Keep well-watered and well-fed, especially while the heads are forming. For best results plant early! Space plants every 18".

-'Amazing' 68 days. Medium-sized plants with domed, solid curds and self-blanching, upright wrapper leaves.

-'Skywalker' 80 days. Medium-sized heads are self-wrapping so leaves do not need to be tied together. Very good cold tolerance for late summer and fall harvesting.

**Kale-** The beautiful ruffled leaves of the kale plant have a lively flavor along with unique peppery qualities. Excellent source of Vitamin A. Space plants 8" apart or closer for baby leaf production.

-'Mix' 60 days. New to the kale craze? This mixture is a good starting point. A sampling of 8 different kales featuring siberian, curly, and dinosaur types that will enable you to taste a wide variety.

-'Starbor' 55 days. Compact plants with very uniform leaves that resist yellowing. The finely curled, dark blue-green leaves are perfect for harvesting all at once. 12-18"H

**Kohlrabi-** The root-like bulb as well as leaves of this plant can be eaten. The bulbs are versatile and can be prepared by sautéing, roasting or enjoying raw. Kohlrabi has a crunchy yet juicy texture and a mildly sweet, unassertive taste. Wonderful when steamed in the microwave and sprinkled with butter, shaved parmesan, salt, and pepper-the flavor is similar to cauliflower. VERY tasty!

-'Kossak' 80 days. Impressive sized bulbs are an immense 8" in diameter yet with no loss in quality or texture; interior remains sweet and tender! Space plants with 10" in between. Harvest before bulbs elongate. Will keep in cold storage for up to 4 months.

## CORN

### 6 Packs

Plant corn in blocks of at least 4 rows for proper pollination, rows should be 30-36" apart and plants spaced with 9" in between. Successive planting may be necessary. Corn requires warm, well drained soil that is highly fertile; use a fertilizer with high phosphorous. Use Bt for corn ear worms. Harvest when punctured kernels are full and "milky", when silks are browning, or 18-24 days after silks first show.

-'Extra-tender 20173' 73 days. Mid-season, super sweet, bicolor. Outstanding, flavorful 7½-8" ears snap off easily from the stalk. Long shelf life. Good tip fill and husk coverage.

-'Kickoff XR' 69 days. Early, super sweet. Thick, bicolored ears are extra large with slightly tapered tips. Tender and sweet ears set high up on the stems.

-'American Dream' 77 days. AAS Winner. Super sweet, bicolor. Exceptionally tender with the finest eating quality. Excellent tip fill and strong husk protection.

# CUCUMBER

## 4 Packs

Cucumbers are grown to be eaten fresh, cooked, or pickled. Moderately acid soil, plenty of moisture and fertilizer. To prevent powdery mildew apply a spray with the active ingredient copper octanoate (approved for organic gardening) regularly. Install row covers at planting and leave in place until well established to prevent the insidious striped cucumber beetles. Plant 1' apart with 6' in between rows, unless using a trellis.

-Slicing Varieties Add a refreshing taste to your summer salads.

-'Burpless Bush' 55 days. Firm, straight, 8-10", cylindrical fruit. Seedless.

-'Diva' 58 days. AAS winner. Smooth, thin skin with crisp yet tender, sweet seedless flesh; spineless. Very tasty! 6-8" fruits at almost every node. Highly recommended.

-'Fanfare' 62 days. High yields over a long time, superb disease resistance. Semi-dwarf, compact habit is excellent for containers. Vines grow 2-2½'.

AAS winner. Slim, deep green 8-9" fruits are remarkably flavorful.

*NEW!*-'Nokya' 55 days. Long, 11-13" asian style fruits have small seed cavities and are parthenocarpic (does not need pollination to produce). Heavy yields of flavorful sweet and crunchy fruits. Needs trellising. 3" Pots Also

-'Salad Bush' 57 days. AAS winner. Very compact and productive plants are a great choice for small space or container gardening. Dark green fruits are 6-7" long. Disease tolerant.

-'Straight Eight' 58 days. AAS winner. Excellent flavor is best when harvested at 8" long. Smooth, perfectly straight, dark green fruits have a very small seed cavity and white spines. Vigorous with heavy yields.

-'Sweet Slice' 62 days. Bitter free and burpless! Vigorous vines produce 10-12" dark green, amazingly sweet fruits. No need to peel skins off before eating.

-Pickling Varieties Great smaller types for canning.

-'Homemade Pickles' 55 days. Medium green fruit can be harvested when 1½ to 5" long. Very productive. Crisp texture & wonderful flavor. Plants grow to 3' long and have excellent disease resistance.

-'Northern Pickling' 48 days. Developed in Maine. Medium green fruits bear early and set heavily on short, space saving vines.

# EGGPLANT

## 4 Packs

Attention cooks, don't soak in oil, just brush with olive oil, sprinkle with your favorite herbs, and broil. Or go for it - marinate with garlic and basil, dip in batter, and deep fry. Plants are heavy feeders, add compost and composted cow manure to soil. Watch for potato beetles, but don't use any harsh sprays or the pollination of fruit may really suffer.

- 'Black Shine' 65-70 days. Deep purple, almost black, asian type fruits are slim and tender. Very productive plants are reliable producers.
- 'Hansel' 55 days. AAS Winner. Sweet, mini fruits are 4" long by 1" in diameter and produced in clusters for easy harvesting. 25-36" H
- 'Nadia' 67 days. Classic, large Italian-type fruits are a glossy dark purple measuring 7½" x 3½". Tall, sturdy plants set fruit even under cool conditions.
- 'Orient Express' 58 days. Attractive, slender, 8-10" long shiny black asian-style fruits. Ready up to 2 weeks before most other varieties.

# FENNEL

## 4 Packs

Feathery foliage holds rain drops as sparkling pearls. All parts (including young shoots) of this plant are edible. Wonderful sliced into salads, lightly sauteed, or grilled. Cooking will mellow the anise flavor. Fertile, well-drained soil and cool temperatures will produce the best bulbs. Plant 6" apart in well-drained, humus rich soil. Transplant with care as roots do not like to be disturbed.

- 'Preludio' 80 days. Heavy, rounded bulbs are uniform w/traditional flavor.
- 'Sweet Florence' 80 days. Heirloom. Delicate flavor and crisp texture.

# LETTUCE

## 6 Packs

Fresh greens for salads all summer long, stagger your plantings to keep a steady supply handy. Grows best during cool weather. Plant 10-12" apart for heading types, leaf varieties and ones that will be harvested as baby can be planted 6-8" apart.

- Butterhead Types Buttery, Boston types.
    - 'Buttercrunch' 75 days. Compact, crisp, heavy heads. Old favorite!
    - 'Red Cross' 48 days. Stunning, large, fancy, bright red heads. Heat tolerant.
    - 'Sylvesta' 52 days. Large heads with thick, flavorful, bright green leaves.
- This lettuce is amazingly good!

## LETTUCE, Continued

- Iceberg Types Extra crunchy with a mild flavor.
  - 'Crispino' 57 days. Tight, dense heads of perfect Iceberg lettuce, excellent results are almost certain with this variety. Sweet, crisp, and moist green outer leaves surround a white interior.
  - 'Mighty Joe' 88 days. Very uniform, round heads are larger size than the traditional varieties. Vigorous with exceptional weight & excellent texture.
- Leaf Types Add a bit of color to those salads.
  - 'Brassica Greens Premium Mix' 21 days. A dynamic array of shapes and textures with flavors that can be spicy, mild, and slightly sweet.
  - 'Encore Mix' 28 days. A lovely blend of colors, shapes & textures.
  - 'Magenta' 48 days. Shiny, slightly puckered, red tinged leaves mature to whorled, conical heads. Crispy with good flavor. Heat tolerant, non-bitter!
  - 'Mesclun Mix' 21 days. Specialty mix of different greens and lettuces.
  - 'Red Sails' 45 days. Bronze-red crinkled leaves. Slowest to bolt of all the red loose leaved varieties.
  - 'Red Saladbowl' 51 days. Burgundy-red, deeply lobed, delicate, oak-like leaves. Retains its mild flavor for a long time and is slow to bolt.
  - 'Starfighter' 52 days. Shiny, green, slightly savoyed leaves that have good flavor with excellent heat tolerance and disease resistance.
- Romaine Types Make the perfect, crisp Caesar salad.
  - 'Sparx' 58 days. Upright, dense heads are attractive with good flavor and uniformity. Increased heat tolerance for use throughout the season.
  - 'Sucrine' 60 days. Back by popular demand! Dense, bright green, petite heads of lettuce are super sweet as their name suggests & delightfully crisp.
  - 'Outredgeous' 57 days. Bright red leaves with ruffled edges. Full-sized heads are big and beautiful.

## MELON/WATERMELON

4 Packs (Unless Noted)

What could be better than picking a fresh melon for breakfast? Plant when soil has warmed. Provide abundant moisture during the early stages until the fruits are setting, afterwards water as signs of wilting occur. Give plenty of space with 2-3' in between plants, rows 6' apart. Transplant gently, to disturb roots as little as possible.

- 'Sarah's Choice' (Cantaloupe) 76 days. Sweet and juicy, 3 lb. oval fruits are so flavorful they consistently win in Johnny's trials.

## MELON/WATERMELON, Continued

*NEW!*-‘Solstice’ (Cantaloupe) 76 days. LARGE 7-9 lb. fruits have the look of an old style musk melon with deep ribs and heavy netting. Slice at the ribs for generous portions of thick, very sweet flesh! Plants yield greatly and have superior disease resistance. 3” Pots Also

-‘Sugar Baby’ (Watermelon) 80 days. Crispy, sweet variety is the standard for northern home gardeners. Long, 6’ vines yield 4-6, 8-10 lb. fruits each. 6 Packs

## ONION, LEEK & SHALLOT

6 Packs

Indispensable Alliums! We’ve sown multiple plants per cell, 30-50 plants per pack. Take care to separate seedlings gently and plant individually as specified to get the most for your garden. All prefer thoroughly prepared soil that is well-drained and rich in organic matter. Keep watered and weeded for best results.

Leek-Adds a delicious, refined flavor to soups. Excellent for Vichyssoise, topped with fresh chives. Plant seedlings in trenches, 6” deep and about 6” apart. As the plants grow, fill in the trenches to blanch the stems. Can also be hilled up in rows.

-‘King Richard’ 79 days. Beautiful, full-sized, foot long leeks. Upright, medium green leaves. For summer harvesting.

-‘Pandora’ 90 days. Upright leaves are dark, blue-green; 1-1½” wide.

Uniform, large diameter shaft. For late summer/early fall harvesting.

Onion-Thin slices cooked really low and slow with a little butter and salt are caramalized, mouth-watering perfection! They’re enough to make one want a whole garden-ful. Plant seedlings 4” apart. Supply extra nitrogen. Onions that are spicy may be a result of soil that is too acidic.

-‘Ailsa Craig Exhibition’ 110 days. Huge, mild Spanish onions average 5 pounds for September harvest. Unique sweet flavor. Short term storage.

-‘Copra’ 104 days. Highest sugar content of all the storage onions. Hard, medium sized bulbs with blocky, round shape. Excellent keeper.

-‘LaSalle’ 103 days. Early-mid season harvest. Large, dark bronze, round-globe shaped onions are suitable for long-term storage of 8 months or more!

-‘Oloroso’ 113 days. Semi-spanish type. Huge, heavy bulbs with copper brown skins & mostly single centers. Late season harvest. Stores 6-8 months.

-‘Riverside Sweet Spanish’ 115 days. High quality, 5”, sweet and mild onions. Thick skins and small necks. Will keep in storage until early winter.

-‘Ruby Ring’ 112 days. Uniform, hard bulbs with dark red skins. Stores well.

Shallot-Used for flavoring soups, salad dressings, vegetables, and grain dishes. Plant seedlings 4-6" apart, bulbs are ready to harvest when the leaves have turned yellow and fallen over.

- 'Camelot' 110 days. Teardrop-shaped bulbs have a dark red-skinned exterior & white interior w/excellent flavor. Good storagability through the winter mos.
- 'Conservor' 110 days. Easy to peel. Large, single bulbs have a reddish-brown skin and cream interior. Suitable for long-term storage.

## PEPPER

### 4 Packs (Unless Noted)

Provide lots of sun and rich moist soil. Do not add too much nitrogen. Use a fertilizer high in phosphorous and calcium. Space plants 12-18" apart. When planting both sweet and hot varieties it is best to isolate them from each other to avoid any cross pollination, which could result in Sweet peppers with heat.

-Sweet Varieties (Bell and Non-Bell are denoted)

- NEW!***-'Boris' 60-65 days. Sweet Banana. Nearly straight, 8" x 1¾" wide fruits held higher on the plant for easier harvest. Pale yellow maturing to bright red. Medium-heavy, sweet and delicious flesh. 3" Pots Also
- 'Carmen' 60 days green, 80 days red. Non-Bell. This AAS winning "Bull Horn" type is particularly suited for northern climates. Remarkably sweet flavor is excellent for salads. 6" tapered fruits on upright, med. plants.
- 'Flavorburst' 67-87 days. Sweet Bell type. Blocky fruits start out lime-green ripening to gold. The 4" juicy fruits have a slight hint of citrus flavor, a Burpee taste-test winner. High yielding plants that give the garden a bright splash of color too!
- 'Goliath' 71 days. Sweet Bell type. Sensational, massive, thick-walled fruits are 4 lobed, 7½" long by 4" wide! Fruits set well under a variety of adverse conditions. Terrific flavor and more vitamin C than oranges! 3" Pots
- 'Jupiter' 66 days. Bell type. Huge, blocky fruits with thick green walls. Great for stuffing & freezing. High-yielding, disease resistant plants are a sturdy 30" with a dense canopy. Excellent!
- 'Lipstick' 53 days green, 73 days red, ripe. Non-Bell. Considered by many to be the most delicious sweet pepper. Dependable, early, heavy yields, even in a cool season! 4" long fruits are perfect raw or cooked.
- 'North Star' 60 days. Sweet Bell. Extremely early variety is ideal for our area. Blocky 3-4 lobed, bright red peppers are produced even under unfavorable conditions. 18-22"H

## PEPPER, Continued

- 'Super Red Pimento' 70 days. Non-Bell. Extra thick, sweet flesh, 5" x 3" fruits.
- 'X3R Red Knight' Bell. 57 days green, 77 red. Blocky 4½" square fruits w/ thick walls. Sugary sweet when ripe. Exceptionally cold & disease resistant.
- Hot Varieties The higher the Scoville rating the hotter the pepper! The Scoville Index rates the hotness of peppers by the amount of capsaicin they contain.
  - 'Cayenne Long Thin' 72 days Long, slender, red fruits reaching 6". Thin, wrinkly flesh used for pickling or processing into flakes. 3500-5000 Scov.
  - 'Early Jalapeno' 60 days green, 80 days red, ripe. 2½" sausage shaped fruits. 2500-8000 Scovilles.
  - 'Krimzon Lee' 62 days green, 82 days red. Beautiful, big 6-8" x 2" fruits. Paprika type pepper is both sweet and moderately hot, 100-1000 Scov. Thick flesh makes this pepper choice for roasting, grilling, and even salads.

## POTATO

### By the Pound

Ensure that your spuds are pesticide free by growing them yourself! Start with fertile, well-drained soil; composted manure is a good addition. 1 lb. of seed potatoes will plant a 5-8' row. A pre-conditioning treatment called green sprouting is highly recommended for our area; it cuts 10-14 days off the growing cycle, increases the yield, and helps prevent disease. For this, place potatoes in darkness for 7-10 days 70-75°F until sprouts are seen, then expose them to light and decrease temp. to 50°F. Prep for planting by leaving small spuds whole and by cutting large ones into 2 oz. pieces with at least two eyes (sprouts). Planting the same day as cutting will reduce the incidence of seed piece decay. When the soil reaches 55-60°F, plant in trenches 4-6" deep leaving 12" in between. When plants reach 6-8"H, gently hill the soil around the base, repeat again at 12-15"H; applying mulch afterwards. It is very important to keep soil moisture consistent until harvest, avoid overhead watering in the afternoon to keep blight at bay. Baby or "new" potatoes can be harvested around 30 days after flowering (for those who simply can't resist) otherwise when the plant has died leave tubers in the soil 2-3 more weeks to set the skins. Dry briefly on a cool day out of the sun, then brush off any excess soil. To help guard against the Colorado Potato Beetle plant pieces in healthy soil, rotate crops every 3-5 years, and handpick the adults and larvae dropping them into soapy water and squishing any orange eggs found on the undersides of leaves; row covers also aid in this pursuit. If insecticides are needed use a Spinosad or Pyrethrum based option.

## POTATO, Continued

- 'Kennebec' Midseason. Heirloom. Classic Maine all-purpose potato, tough and adaptable growing in a wide range of conditions. Stores extremely well. Abundant yields of uniform, sweet, white fleshed tubers with buff colored skin.
- 'Red Pontiac' Late. Heirloom. Large, rounded tubers with red skin and white flesh. This multipurpose potato stores well. Drought tolerant in the field but susceptible to most common potato diseases.
- 'Russet' 110 days. Heirloom. Elongated oval tubers have smooth pale brown skin with white flesh that turns fluffy when baked making the perfect vehicle for any number of toppings.
- 'Yukon Gold' Early Midseason. Heirloom. Tasty, yellow, thin-skinned tubers have a dry texture. Excellent buttery flavor and drought tolerance. Stores well but that may not matter!

## PUMPKIN

4 Packs (Minimum of 8 plants/pack)

A Halloween necessity. Give them plenty of space and keep well-watered. They prefer fertile soil - add composted cow manure. To prevent powdery mildew apply a spray with the active ingredient Copper octanoate (approved for organic gardening) regularly. If a pumpkin for pies is what you desire we recommend trying 'Winter Sweet' kabocha squash instead.

- 'Orange Smoothie' 95 days. AAS winner. Bright orange, smooth, non-ribbed fruits are good for painting. Fruits average from 6-9 pounds. Plants have a medium vine length and should be spaced 2½-3' apart.
- 'Racer Plus' 85 days. Ribbed, dark orange, mid-sized pumpkins with high quality dark green handles. Yields 2-3, 12-16 pound fruits per plant. Short vines may be spaced 2-2½' apart.
- 'Tom Fox' 110 days. Well-ribbed, medium pumpkins are between 12-20 pounds. Deep orange color and fantastic handles make them great for Halloween. Long vines yield 2-3 fruits per plant and should be planting with 3-4' in between.

# SPINACH

## 6 Packs

One of the “super foods”, packed with antioxidants and minerals. Grows best in cool, mild climates. Plant in a moist, fertile soil with a pH of at least 6.0 (6.5-7.5 is best) as Spinach is sensitive to acidity levels. Full sun to pt. shade, water at soil level to avoid splashing on leaves. Harvest greens at full or baby size, rinse multiple times before eating.

-‘Tyee’ Semi-Savoy type. 40 days. Slowest to bolt, this is considered the standard of Savoyed Spinach. Dark green leaves are vigorous, with an upright habit.

Does well as a spring, summer, or fall crop, and is an ideal type for hoop house growing thru December.

# SQUASH

## 4 Packs (Minimum of 8 plants/pack)

Christopher Columbus brought squash back to England from the New World. Modern day squash has been consumed for over 10,000 years. To prevent powdery mildew apply a spray with the active ingredient Copper octanoate (approved for organic gardening) regularly. Space generously- with 6’ in between rows.

-Summer Squash Eaten as soon as picked, either raw or cooked. If using plants for both fruits AND edible blossoms, harvest the male flowers (those with thin stems and lacking an immature fruit at base) leaving a few to pollinate the females; harvest mid-morning and when fully open.

-‘Aristocrat’ syn. Commander. 53 days. Zucchini-type. AAS winner. Smooth, dark green, 7-8” cylindrical fruits are flavorful and succulent. Compact, bushy plants. Open habit makes harvesting HUGE yields easy.

-‘Costata Romanesco’ 52 days. Heirloom. Prominently ribbed, Italian zucchini w/pale green speckled skin. Delicious and nutty with good texture.

-‘Slick Pik’ 48 days. Extra early. Very attractive yellow fruits have a good taste, and are blemish-free thanks to the spineless leaf petioles; also making it easier to harvest.

-Winter Squash Thick skinned fruits of all shapes, sizes, and colors. Usually prepared by baking they are delicious either savory or sweet. Try with maple syrup & butter. Stores well.

-‘Bonbon’ 95 days. AAS winner. Classic buttercup fruits are dark green, with gray “button” on the underside. Weighing an average of 4-5 lbs. and producing an average of 4 fruits per plant. Space 12” apart.

## SQUASH, WINTER Continued

- 'Honey Bear' 85 days. Acorn type. AAS winner. Deliciously sweet, mini 4" round fruits are just the right size for 2 servings. Compact, bush type plants can be spaced every 12" and are resistant to powdery mildew. Averages 3-4 fruits per plant.
- 'Metro PMR' 105 days. Butternut type. Smaller variety weighing 2½-3½ lbs. Exceptional storage life. SUPERIOR flavor! Compact. 4-5 fruits/plant.
- 'Winter Sweet' 95 days. Kabocha type. A Johnny's favorite! Best eating quality is between 2 and 5 months after harvest. Glorious sage-gray fruits weigh 4-5 lbs. each. Extra long storability. Averages 2 fruits per plant and each pot or cell will have multiple plants in it. 3" pots also

## STRAWBERRY

3" Pots, Bare-root 10/bundle & 12" Hanging Baskets

See "Fruits & Nuts" section of the nursery catalog for further information.

## SWISS CHARD

6 Packs

Swiss Chard is an excellent source of Vitamins A, C, and K. Rich in Calcium and Iron also. Will tolerate partial shade. Harvest the young leaves when tender, cutting only the outer leaves at the base of the plant. Be careful not to disturb the root system. Space 6" apart.

- 'Bright Lights' 28 days baby, 55 days mature. AAS winner. Multi-colored stems of gold, pink, orange, purple, red, and white. Eat raw or lightly cooked. Milder taste than many chards.
- 'Lucullus' 35 days baby, 52 days mature. Wide, white stalks that are delicious when treated like asparagus. This plant has incredible versatility- leaves, stalks, and even the flowers can be tasty when added to your meals. Plants may re-emerge after a mild winter to produce an early spring harvest. 20"H
- 'Rhubarb' 35 days baby, 60 days mature. Glossy, dark green leaves are heavily crinkled with bronze/red veins and crimson stalks. 12-16"H

# TOMATILLO/GROUND CHERRY

4 Packs

*Physalis* sp. Fruits are borne and develop inside a papery husk. These members of the tomato family need to go in the ground when all danger of frost has passed and the soil is thoroughly warm. Plants need good drainage, no clayey soils! Plant deeply, leaving at least 3 sets of leaves above the soil line; spaced 3' apart in rows with 3-4' in between. Mulch lightly, spray with fish emulsion when they set flowers & again 2 weeks later. Keep plants strong by avoiding drought stress-give 2" of water/week. More cold tolerant than tomatoes and will bear fruits until a heavy frost.

-*ixocarpa* 'Tamayo' Tomatillo. 85 days. Tamayo produces fruits 2-3 times the size of the standard varieties, that's 4½" in diameter! Dark green fruits have lime green husks with an above average shelf life. Try making fresh, green salsa at home. Plant at least 2 plants to ensure pollination.

-*pruinosa* 'Goldie' Ground or Husk Cherry/Dwarf Cape Gooseberry. 75 days. Masses of ½-¾" sweet berries have a "wild" indescribable kind of flavor that can be used in just about any culinary fashion; do not eat them green. Sprawling plants will produce all season long bearing up to 300 fruits each. At harvest, fruits have the tendency of dropping off the plants before they are fully ripe so simply scoop them all up and keep them in their husks in a basket for about a week where they'll turn ripe and their color will deepen. Picked fruits will keep fresh for up to 3 mos. in a mesh bag at 50°F!

# TOMATO

4 Packs (Unless Noted)

*Lycopersicon esculentum*. A staple of vegetable gardens. Tomatoes are low in calories and good sources of Vitamin C and lycopene, a beneficial caratinoid. Give your plants sweet soil for sweeter fruits, tomatoes like alkaline (limey) soils.

Determinate - Plants stop growing at a certain height, usually 2'. The crop will ripen over a short period of time, good if you're processing for storage. Good for containers and small gardens.

Indeterminate - Plants continue to grow until frost or the vines are top-pruned. The crop will ripen over a long period. Stakes or supports are needed as most will get tall!

Disease Resistance Codes:

A - Alternaria Stem Canker

B - Early Blight

Bs - Bacterial Speck

F - Fusarium Wilt

Ff - Fusarium Races 1&2

L - Late Blight

N - Nematodes

T - Tobacco Mosaic Virus

SWv - Spotted Wilt Virus

St - Stemphylium Gray Leaf Spot

V - Verticillium Wilt

YLc - Yellow Leaf Curl Virus

-Cherry And Grape Varieties - Good for snacking or in salads.

*NEW!*-'Braveheart' 60 days. Indeterminate. FTSt Well-behaved, medium sized plants produce bright red, sweet and juicy 1 oz cherry fruits with a rich, bold flavor. Thin skins are resistant to cracking. Good option for containers.

-'Cupid Hybrid' 65 days. Indeterminate. ABsFSt. Meaty 1", grape type fruits are very sweet and crack-resistant. Vigorous plants yield loads of long trusses right up til frost. High disease resistance & holding ability.

-'Jasper' 60 days. Indeterminate. BFfL. This AAS winner has small deep red, cherry fruits that resist cracking and have a pleasantly chewy texture with a sweet flavor. Extra vigorous and tall. 4½" Pots Also

-'Juliet' 60 days. Indeterminate. This AAS winning grape tomato is sweet and has deep red, shiny fruits that are 1½ to 2 ounces in size. With 12-18 fruits per cluster! Crack resistant. Very productive.

-'Sungold' 57 days. Indeterminate. FfV. Deep sweetness with a hint of acid tartness. Small, cherry type fruits in prolific clusters ripen early to a rich apricot color and produce until frost. EXCELLENT! 4½" Pots Also

-'Supersweet 100' 65 days. Indeterminate. FTV. Clusters of very sweet, early season, cherry type fruits. 4½" Pots Also

-Paste Varieties - Good for sauces.

-'Golden Rave' 67 days. Indeterminate. FT You'll rave about this baby roma type tomato. High-yielding with beautiful 2 oz. golden yellow fruits. Sweet, well-balanced flavor is excellent for fresh eating or cooking. 3" Also

-'Roma' 75 days. Determinate. VF Bright red, 2 oz. Italian pear-shaped fruits with meaty interiors make great sauces and ketchup.

-Dwarf Varieties - Best suited for container gardening.

-'Red Robin' 55 days. Determinate. Masses of mild, sweet, 1" fruits on 8-12"H plants. Tender skin and good taste even when grown indoors. 3" Also

*NEW!*-'Tidy Treats' 50-55 days. VF The compact determinate habit with the continuous production of an indeterminate type, this semi-determinate cherry tomato gives you loads of ¾-1" sized delicious, fruits. 4½" Pots Also

## TOMATO, Continued

-Large Varieties - Good for slicing, salads, and canning

-'Better Boy' 75 days. Indet. VFNASt. AAS winner. Very popular! High yields of dp red 8-14 oz. fruit w/meaty interior. Wonderful flavor. 4½" Also

-'Big Beef' 70 days. Indeterminate. VFfNTASt. AAS classic. Beefsteak type. Huge, 14 oz. fruits on large plants. Excellent flavor! 4½" Pots Also

-'Caspian Pink' 80 days. Indet. Fruits are large, less rounded than most, reddish-pnk in color w/excellent texture, sweet taste & great flavor. First var. to beat Brandywine in the CA trials for flavor! Avg. 10 oz. 4½" Only

-'Goliath Bush' 68 days. Deter. VF. This is the tomato for those limited on space! Pretty, compact plants grow 3½' tall requiring little staking. Meaty, flavorful 3-4" fruits with a high sugar content. Fruits consistently until frost.

*NEW!*-'Goliath Italian' 76 days. Indeterminate. VFfNTA. Firm, 8 oz. beefsteak-type fruits with excellent, robust flavor! Vigorous plants have strong disease resistance. 4½" Pots Also

-'New Girl' 62 days. Indeterminate. VFf. Better tasting and more disease resistant than Early Girl. Fruits are 4-7 oz. and hold their ripeness and flavor on the vine well.

-'Parks Whopper CR Imp' 65 days. Indet. VFfNT. The standard for taste, size & yield. Improved disease & crack resis. over the orig. Lrg, 12 oz. fruits make perfect sandwich slices-nearly covering a whole slice of bread! 4½" Also

-'Ultra Boy II' 68 days. Indet. VFN. Good yields of early, globe shaped 14 oz. fruits are very firm, dark red with excellent old-fashioned flavor. 3" Also

-'Ultra Sweet' 62 days. Indet. VFT. Early, very firm, med. sized beefsteak hybrid. Bright red fruits weigh 10oz. with an outstanding balance of acidity and sweetness that give that highly sought after "tomato" taste. 3" Also

## CRESS (WATERCRESS)

6 Packs

Nasturtium officinale. This perennial green is a must for the garden, rich in vitamins with a delicious taste; hardy to zone 4. Its distinctive peppery kick blends well with astringent fruits like oranges and grapefruit. Eat your greens- researchers have found a compound in this plant that inhibits certain cancers! Grows best in full sun and very moist soil with a pH of 7.0. Especially easy when containerized. After the first month when the plant has good growth the whole pot may be submerged in water up to the lip, then change the water periodically. 50 days.

# HERBS

Codes:

1=Culinary, 2=Medicinal, 3=Ornamental, 4=Dye, 5=Dried Flowers, 6=Aromatic  
A=Annual, B=Biennial, P=Perennial, TP=Tender Perennials, HP=Houseplant

## BASIL

3" Pots (Unless Noted)

*Ocimum basilicum*. 1,3. 🌱 A. This king of the herb world offers an array of flavors and scents. Ideal for salads, pesto, Italian dishes, and other ethnic cuisines. Pinch off blooms to prolong the harvest. Full sun, moderately rich, evenly-moist soil.

- 'Amethyst Improved' Very dark, almost black, thick, down-turned leaves.  
16-20"H

- 'Dolce Fresca' AAS winner. Genovese type. Beautiful, bushy plants with hundreds of dark green, very aromatic leaves. Excellent for use as a bedding plant. Flowers produced VERY late in the season. Dwarf, 10-14"H, 10-12"W

- 'Herbalea' Series Multi-use basils developed for their beauty and flavor. Rounded, neat habits. Larger, more impressive flowers and/or colorful foliage! Increased resistance to the common basil diseases. Heights vary.

- 'Red Ball' Spicy clove scent, green edged leaves with purple interior. Pink flowers in late summer. Good candidate for indoor growing. 18-20"H

- 'Snow White' Masses of white, 10-12" flower spikes produced continuously, highly fragrant; great cut flowers! Beautiful when planted en masse and will be covered with pollinators! 14-18"H 4½" Pots

- 'Wild Magic' Richly colored, mostly green leaves have a reddish/purple hue towards the center. 12-24"H

- 'Italian Large Leaf' Extra large, fragrant leaves. Great for pesto. Sweet flavor. 16"H

- 'Martina' Genovese type leaves. Intense, aromatic flavor, Can be grown year round with greenhouse conditions. Dwarf, 14"H

- 'Mrs. Burns' Lemon' Bright green, 2½" long leaves with an intense, sweet & tangy, lemon flavor. 20-24"H

- 'Plenty' Extra vigorous grower with resistance to fusarium wilt. Grows well indoors or out and is a good choice for the cooler spring and fall months. Genovese type with dark green, intensely aromatic leaves. 18-24"H

- 'Sweet Thai' Spicy, anise-clove flavor that is most commonly used as a condiment in Asian cuisine. The stems and blooms are an attractive purple color. 12-18"H

## BAY

3" & 6" Pots

*Laurus nobilis*. 1,2,3. HP. An evergreen tree hardy to zone 8, the Bay plant has always been associated with glory, honor, and greatness. Dried leaves can be used in soups, stews, marinades, sauces, or added to the water when cooking grains. Full sun to part shade when outside, Bright light when inside. Can grow to 6' tall indoors.

## BORAGE

3" Pots

*Borago*. 1,3. A. (Self Sows) Borage was said to give Roman warriors the courage to fight, or was that the wine they mixed it in? The chopped fresh leaves, with their cucumber-like flavor, and the flowers are delicious in salads and summer drinks. Add a few leaves when making a vegetable stock, or simply saute like spinach. Float the star-like blossoms in punches or freeze them in ice cubes. Flowers attract bees.

-*officinalis* Traditional, blue flowers. 36"H

-*officinalis* 'Alba' Pure white flowers. 20"H

## CATNIP

3" Pots

*Nepeta cataria*. 2. ☹️P. Drives the felines into a frantic frenzy. Fragrant, bushy plants bear white flowers from May to September. This tough plant tolerates drought, dry, rocky soil, air pollution, and deer. Will also deter common vegetable garden pests such as the cucumber beetle, potato beetle, and squash bug. Hardy to zone 3. Sweet, minty flavored tea is a soothing nightcap, a folk remedy for colds. 18-24"H

# CHAMOMILE

## 3" Pots

*Chamaemelum, Matricaria.* 1,2,3,5,6. Tea made from the centers of the flowers is very popular as an aid to digestions, to reduce fever or stomach cramps, and to calm inflammations. Makes a soothing and cleansing skin wash. In Europe it is not unusual to find entire lawns made of roman chamomile which when stepped on fills the air with a sweet apple aroma. Chamomile was also known as the "Plant's Physician" and it's said would aid in the recovery of ailing plants if planted near them; makes an especially good companion to cucumbers and onions. Prefers loamy soil with high sand content. Moist, but not waterlogged. Harvest the flowers in midsummer before they reach full bloom, dry in a well-ventilated place at 95°F, and store in cellophane bags or glass jars in the dark.

-'German' Sweet smelling, single white and yellow daisy-type blooms. Great in teas. Blooms the first year. Annual. 18-24"H

-'Roman' Lawn Chamomile. Strong fragrance, can have a bitter taste so it's the runner-up for using in edible applications but still contains the same effective properties as the german type. Blooms second year. 9"H Perennial to Zone 4.

# CHERVIL

## 3" Pots

*Anthriscus cerefolium.* 1. A. Traditionally used in all spring salads. Improves any dish where parsley is usually used and should be added to recipes at the end since heating may turn it bitter. Pairs well with thyme, spinach, sorrel, marjoram, and tarragon. Its subtle, warm flavor is something you might notice in the background but not be able to pinpoint. A carrot relative. Does not dry well, try making a compound butter with it or adding some to your béarnaise!

# CHIVES

## 3" Pots

*Allium.* 1,3,5. 🌱P. A diminutive member of the onion family. Essential for every kitchen. Dainty, round clusters of edible, typically lavender colored flowers. Repels insects. Best when grown in well-drained soil, divide and replant the younger outer sections of plant every few years. 18"H

## CHIVES, Continued

- 'Geisha' Garlic Chives. AAS winning variety with that "just right" garlic flavor. Leaves are slightly wider, flatter, and more refined than others. An interesting ornamental or vigorous edible; your choice. 10-24"H
- 'Gigantic' Elegant, arching form with attractive star-shaped white flowers is appealing not just for culinary purposes. Has the pleasant flavor of chives as well as a faint garlic taste. Almost twice the size of standard chives. 24"H
- 'Staro' Heavier leaves hold up better for processing, freezing, drying, or using fresh. 18"H

## CILANTRO (Coriander)

3" Pots

*Coriandrum sativum*. 1. A. Widely used culinary herb. Popular in Indian, Greek, Mexican, Latin American, and Asian cooking. The leaves have a very different taste from the seeds. The pale mauve flowers attract bees. Likes cool weather and moist, well-drained soil. 2½'H

- 'Cilantro/Coriander' Bred for maximum leaf production without bolting in the heat. 28"H
- 'Calypso' 50-55 days for leaves, 120-150 days for seed. Full, bulky plants provide a large, uniform harvest of scented leaves. Weeks slower to bolt than the competition. 12-18"H

## DILL

3" Pots

*Anethum*. 1. A. Best known as the flavor in pickles. Seeds add interest to dishes ranging from potato salad, to sauerkraut, to apple dishes. Try the chopped leaves with sour cream, vinegar, and sliced cucumbers or as a garnish.

- 'Bouquet' Compact plants with finely cut foliage are used primarily for their seeds in pickling. 18-20"H
- 'Fernleaf' Unique, dwarf plants with dark green leaves. Its used primarily for its fresh foliage in recipes. Slow to bolt. 18"H

# EUCALYPTUS

## 3" Pots

Eucalyptus. 2,3,6. TP. Broad shiny silver leaves on smooth grayish white stems are highly decorative and useful! Long utilized for aiding in respiratory ailments such as asthma, cough drops and antiseptic rinses which are made with oil from the leaves. Can be used indoors to neutralize and deodorize the air. Koala bear may love this but the insects and deer do NOT! Tolerant to a wide range of pH's. Light loamy soil is preferred with full sun and dry conditions being the norm. for them. They are heavy feeders and if given more water will grow faster but may develop blisters if it's too much, so ere on the dry side.

-'Silver Dollar' Ornamental variety used by florists for its lg. round leaves.

Reddish-brown stems and slightly pink new growth are quite pretty and blend very nicely with container plantings. 2'H

-pulverulenta 'Baby Florist Blue' Intense silvery-blue almost white leaves are covered in a waxy layer making them very long-lasting in arrangements. Perfectly round leaves grasp the stems attaching almost horizontally lending a much neater more formal appearance. Hardy to 20°F

# FENNEL

## 3" Pots

Foeniculum. 1,3. TP. Feathery foliage holds rain drops as sparkling pearls. Stunning yellow flower umbels add interest to plantings, attracting butterflies all season and making an unexpected accent in containers. When adding to a prepared recipe that is hot it is best to wait until the very last moment because heat will destroy the delicate flavor. Average, well-drained soil is best.

See Vegetable Section Also

-'Smokey-Bronze' 50-60 days. Non-bulbing type. Bronze hued, lacy foliage that can be used in salads, dressings, or as a garnish. If left to set seeds their sweet, anise flavor can be used in baked goods or to make a tea for upset stomachs. A precious host plant for the Anise Swallowtail & Eastern Black Swallowtail. 30"H

# LAVENDER

## 3" Pots (Unless Noted)

Lavandula. 1,3,5,6. 🌱 P. Fragrant, typically blue-violet flowers for potpourris, sachets, soaps, and perfumes. Its scent is commonly used in aromatherapy applications for the soothing effect it has. Attracts butterflies. Fine border and accent plants yet not the easiest to establish in our area; be sure to give them a place with excellent drainage and slightly alkaline soil. Winter protection is necessary.

-angustifolia English lavender

-'Big Time Blue'. Earliest blooming with large, deep purple-blue flower spikes atop a cushion of gray-green foliage June to August. 24"H

-'Hidcote Superior' Fragrant lavender blue flowers. 12"H

-'Munstead' Lavender blue, fragrant flowers. 18"H

-'Sweet Romance' Early blooming violet-purple, branched flower spikes atop a compact mound of gray-green foliage. 12-18"H. 1 Qt. Pots

-intermedia Dutch Lavender, aka Lavandin. A cross of angustifolia and latifolia.

-'Phenomenal'. Heat, humidity, and drought tolerant with elegant lavender flowers. 22-24"H. 4½" Pots Also

-stoechas 'Anouk' Series Spanish Lavender. Soft, silvery-grey plants with re-blooming flower spikes. Excellent attributes like disease resistance, weather tolerance, and spicy fragrance make this a wonderful component in containers. Full, upright/spreading plants, 18-24"H. Hardy to zone 6.

Colors include: Double (Multi-colored dark purple)

Silver (Deep purple & violet blue)

**NEW!**-stoechas 'Madrid Lavish' Spanish Lavender. The FIRST series to have flowers with multiple bracts! Massive, long-lasting blooms (sometimes for months) are early and IMPRESSIVE. 10-15"H, 36"W

Colors include: Pink Purple

# LEMON BALM

## 3" Pots

Melissa. 1,2,6. P. A member of the mint family. Its latin name comes from the greek word for "bees" as it is a strong attractant for them. Fresh leaves make a calming, delicious tea or an interesting addition chopped and added into salads. Harvest whole stems before plant flowers and dry quickly to avoid leaves turning black. Useful in perfumes and soaps as well. Average, well-drained soil, grows well in sun or shade. 2½"H

## LEMON GRASS, WEST INDIAN

4½" Pots

*Cymbopogon citratus*. 1,2,6. TP. Aromatic grass from India. Used for flavorings, perfumes, and to treat digestive problems and fevers. This plant forms handsome, 2-3'H upright clumps of slightly arching light green foliage. Plant in full sun with well-drained soil and keep evenly moist. Can be overwintered in a sunny window. As the preferred species for culinary use, the stems can be crushed or chopped and used in soups and marinades.

## LEMON VERBENA

3" Pots

*Aloysia triphylla*. 1,3,6. TP. A strong lemon flavor compliments other teas. Try adding finely crumbled dried leaves to your carrot, banana, or zucchini bread. Used in sachets. Excellent houseplant or for a cool sun porch. Can grow to 5'H.

## LOVAGE

3" Pots

*Levisticum officinale*. 1. P. Excellent flavoring for soups, stews, and casseroles. Celery-like flavor. Hollow leaf stems make good straws for Bloody Mary's, or so we hear! Tall growing, handsome, tropical looking herb. 5'H.

## MARJORAM

3" Pots

*Origanum majorana*. 1. A. A special, strong, spicy flavor. Rub on meat before cooking. Combines well with sage when used in poultry dishes. Oil from the top portion of the plant may be used in soaps.

- 'Sweet' Flowers early, compact, 20"H.

## MINT

3" Pots

*Mentha*. 1,3. P. Grown for the familiar leaves, which have long been cultivated for their oils. See almost any cookbook for uses. Partial shade and moist soil. Can be invasive, so sink the plant in the ground-container and all or plant it where you won't mind it spreading.

- 'Apple' Sweet, fruity fragrance which is excellent used in teas or fruit salads. Creamy white edged leaves are a pretty feature. 18-24"H
- 'Chocolate' Bronzy peppermint-like foliage with a unique flavor. 24"H
- 'Kentucky Colonel' Excellent spearmint flavor and scent, great for jellies. Large leaves and a robust plant habit. 24"H Cut often for good regrowth.
- 'Peppermint' Deliciously spicy! Great for tummy-soothing tea. 24"H
- 'Strawberry' Sweet, strawberry-like fragrance and petite green leaves. Lovely in fruit salads and in teas. 18-24"H

## OREGANO

3" Pots

*Origanum*. 1,2,3. Necessary for Italian, Spanish, and Mexican cooking. Flavor compliments tomatoes nicely. An herb pantry staple, very versatile, the leaves can be used dried or fresh. Plant in full sun and lean, fast drying soils. Roots easily- take cuttings to grow indoors for your winter cooking. Its oils are said to have antiseptic properties.

- vulgare ssp. hirtum* Greek Strong growing, intensely flavorful leaves- best choice for cooking with. Hardy to zone 5, winter protection necessary. 12-28"H
- vulgare* Italian This variety is actually a cross between sweet and wild marjoram lending a milder flavor than greek oregano. Clumping, mounding habit with some trailing branches. Tender perennial. 1-2'H

## PARSLEY

3" Pots

*Petroselinum*. 1. B. Balances flavors of food. Fresh green foliage makes an excellent garnish. High vitamin and iron content. Neutralizes garlic or onion aftertaste, also frequently used in dog treats for canine breath-freshening.

- 'Italian Dark Green' Large, dark green, flat leaves with a strong flavor.
- 'Triple Curled' Curly, almost sharp-edged leaves are milder in flavor than the flat.

# PATCHOULI

3" Pots

Pogostemon. 2,6. TP. Well known for its fragrance, it is often used in perfumes. It is also used to treat intestinal issues, colds, vomiting, and nausea. Skin conditions such as burns, chapped skin, fungal problems, and acne have also been treated with its oil. Bushy plants with large leaves reach 3-4'H. Prefers rich soil and part shade.

# ROSEMARY

3" Pots

Rosmarinus officianalis. 1,2,3,4,6. 🌿 TP. One of the most fragrant herbs. One hundred and one uses for decoration, hair and skin rinses, and cooking. Use the stems as skewers for barbecued kabobs. Butterflies and bees love rosemary and the honey produced is delicious. Attractive evergreen foliage and pale blue flowers. Fine houseplant for cool, sunny windows!

- 'Blue Spires' Well-branched habit with sweeping upright shape and clear blue flowers. 4'H
- 'Gorizia' Larger overall with bigger light blue flowers & larger needle-like leaves. Robust very vertical habit of up to 5'H. Excellent candidate for topiaries.
- 'Prostratus' Creeping, low-spreading groundcover. Violet blue flowers. Trails up to 3'. 6-12"H. 8" Baskets Also
- 'Tuscan Blue' Upright habit & broader leaves than other varieties. Clear blue flowers.

# RUE

3" Pots

Ruta. 3,5,6. 🌿 P. A hardy subshrub with gray, aromatic foliage. Repels fleas. The oils in this plant can cause skin rashes on some people. Rue is best used in ornamental gardening and its value as a medicinal plant is outweighed by its toxicity. Belonging to the Rutaceae family, this plant is one of the few that serves as a host for the Giant Swallowtail Butterfly larvae; witnessed here in 2012!

- graveolens Dainty clusters of yellow flowers are followed by attractive green seed capsules. 3'H

## SAGE

3" Pots

Salvia. 1,3. 🌱TP. Originally found in the Mediterranean. Used in flavoring meats and cheeses. Tolerant of hot, dry conditions. Some are not meant to be edible but are more intended to be decorative additions in planters and beds.

-elegans 'Pineapple' Delicious pineapple scent and flavor. Brilliant red flowers appear late in the season. 2-3'H

-officinalis varieties

-aurea 'Golden Variegated' syn. Good Friends Golden. Chartreuse-yellow leaves with dark green markings. 12"H

-'Berggarten' Large, gray blue leaves. Robust and low growing. 24"H

-'Common' Gray-green leaves and pale blue flowers, best variety for culinary purposes. 32"H

-'Purpurea' Aromatic purple foliage. 12-24"H

-'Tricolor' Ornamental, aromatic, white, green, and pink foliage. 12-18"H

## SAVORY

3" Pots

Satureia. 1. Adds special flavor to dishes with peas, beans, or lentils. Excellent in vegetable juices, meatloaf, and with rice.

-'Summer' A. Has a delicate flavor. Interesting addition to green beans. Harvest often during the season then enjoy the beautiful fall show with the contrast of lavender flowers and purplish foliage. 1½'H

-'Winter' P. Strong, more pungent flavor works well in hearty stews. Shinier, thicker leaves than the annual type. Attractive low bush for borders, light lilac flowers. Thrives in dry, poor soil and is hardy to zone 3. 6-12"H

## SORREL

3" Pots

Rumex acetosa. 1,2,4. P. Grown for greens in the old-fashioned garden. Adds zest to bland foods. Great additions to salads. Leaves high in Vitamin C. Remove flowers as they form to keep leaves tender. Harvest often. 12"H

## STEVIA

3" Pots

*Stevia rebaudiana*. 1. A. The glucoside compounds found in this plant make it 200-300 times sweeter than cane sugar without the resulting calories and tooth decaying plaque. Their dried, powdered leaves can be substituted for sugar in recipes. Leaves consumed fresh tend to be less sweet. This native of Paraguay and Brazil prefers rich, consistently moist, well-drained soil and thrives in sandy loam. Will tolerate partial shade. Bushy plants are high-yielding and produce the best quality of leaves for harvesting prior to flowering. 1-2'H & W

## SWEET ANNIE

3" Pots

*Artemisia annua*. 5,6. A. Large, pyramid-shaped plants have fern-like, dark green foliage. Sweetly scented foliage can be dried and used for wreaths and decorations. Bears panicles of tiny yellow flowers. Full sun, average to fertile well-drained soil. 4-7'H

## TARRAGON

3" Pots

*Artemisia dracunculus* var. *sativa*. 1,6. P. Ours is the true French strain. Use fresh leaves, in small amounts, in sauces, salads, meat, vegetable, and egg dishes. Preserve dried, frozen, or in white vinegar. Plants are heavy feeders and need plenty of water. 24"H

# THYME

## 3" Pots

Thymus. 1,3,5,6. 🌱 P. A fundamental herb in French cooking. Pretty pink or purple flowers attract bees and butterflies. Excellent for rockeries, borders, and in cracks along pathways. Creeping and bush types. All do best in poor, well drained soil. Full sun. Also see our complete listing in the nursery catalog.

-citriodorus varieties Lemon Thyme

-'Doone Valley' Pungent, tiny green leaves are splashed with yellow.

Compact, low-growing 5". Tender perennial.

-'Golden Lemon' Pungent lemon scent and golden variegated foliage which is more pronounced in bright light. 6-10"H. Tender perennial.

-'Lemon' Light green leaves with pale lavender-white flowers produced in summer. 6"H

-vulgaris English Thyme Rounded leaves and a semi-creeping habit. Classic culinary Thyme. 6-8"H

-vulgaris French or Summer Thyme Narrow, distinctly gray leaves have a sweet almost medicinal fragrance. The variety most preferred by the french.
